

Attachment C – Training: Named Communities Definition

This documentation is linked in the Energy Equity section of the EPPM tool to enable users to have definitions at their fingertips when submitting their CSAs.

Named Communities

Highly Impacted Communities:

- Determined by WA Dept. of Health
- Census Tract Scale
- 9 or 10 or Tribal Lands
- Human and Environmental Health Attributes

Vulnerable Populations:

- Required by CETA, Created with EAG
- Census Block Group Scale
- Socioeconomic Attributes
- About 60 factors cast to a 1-5 scale
- High/Medium/Low Macro level View
