Dear Commissioner Oshie:

This letter is to clarify some comments made by one of our employees attending the public meeting regarding PacifiCorp's rate increase request (docket number: UE-100749).

Jerry Arnold said in his statement PacifiCorp's proposed increase would increase Boise Inc's Wallula pulp and paper mill's *monthly* power bill \$4.5 million. He misspoke; the proposed 21% increase would increase Boise Inc's Wallula pulp and paper mill approximately \$4.5 million *per year* to a total of approximately \$25 million per year.

Sincerely,

Destry Henderson  
Communications Manager
