

PUGET SOUND ENERGY
Electric Tariff G

SCHEDULE 216

(N)

ELECTRICITY ENERGY EFFICIENCY PROGRAM
Incentive for Existing Electric Residential Conversion to Natural Gas

1. AVAILABILITY/ELIGIBILITY:

Any owner or responsible party, including Customers ("Eligible Party" or "Eligible Parties"), who own, manage or reside in a Single Family Residence that receives Electric Service from the Company under Schedule 7 of Electric Tariff G. Electricity must be used as the primary source of space heating and/or water heating in the Single Family Residence and Measures funded under this program must result in the source of space and/or water heating changing from electricity to natural gas for such heating.

A description of eligible structures, Measures and Customer Eligibility is available from the Company's Energy Efficiency Services Department. Customer Eligibility may vary by structure type and/or amount of energy usage.

2. PURPOSE:

The Company desires to offer one-time incentives to Eligible Parties in order to encourage investments in conversions to highly efficient natural gas space heating and/or domestic water heating. The Company will provide incentives for replacing existing electric space heating and/or water heating equipment with:

- High efficiency natural gas space heating equipment and/or
- High efficiency natural gas domestic water heating equipment

3. DEFINITIONS:

Single Family Residence – A Single Family Residence is a structure that is approved for occupancy as a permanent single family residence by the local governing agency or agencies and receives Electric Service from the Company. The Single Family Residence may be a single structure or be a portion of a duplex or triplex structure. A mobile or manufactured home is not considered a Single Family Residence for purposes of this program.

4. MEASURES:

The Company will maintain and make available a list of cost-effective efficiency Prescriptive Basis Measures. Specific minimum amounts of electric Energy usage may be required to qualify for the rebate and the rebate amounts may vary based on type of existing electric heating to be replaced and the amount of historic energy usage. The Prescriptive Basis Measure list and rebate amounts may be updated as market conditions change. In addition, as market conditions change the Company may impose limits on the number of Eligible Parties and/or terminate this program. Measure category headings may include but are not limited to;

Space Heat
Water Heat

SCHEDULE 216

(N)

ELECTRICITY ENERGY EFFICIENCY PROGRAM
Incentive for Existing Electric Residential Conversion to Natural Gas
(Continued)

5. SERVICES:

The Company will offer information, savings estimates and incentive application forms and may also offer referral services to encourage Eligible Parties to make cost-effective investments in high efficiency natural gas space and/or water heating equipment to replace their existing electric space and/or water heating equipment.

6. FUNDING:

Prescriptive Basis Measure funding will be prepared and updated as markets change and will be available from the Company. The Company, at its sole discretion, may inspect installations and verify the change in fuel use prior to fulfillment of the incentive.

7. OBLIGATIONS OF ELIGIBLE PARTY:

Eligible Party shall purchase qualifying Measure(s), install (or have installed) the Measures in accordance to all applicable codes, regulations, safety and health standards, specifications, manufactures instructions, and standard practices. The Eligible Party is solely responsible for and assumes all liability associated with contracting, hiring and paying independent contractors to install Measures. Eligible Party must submit required documentation of purchase and installation to the Company under terms and instructions on the current incentive form.

8. SCHEDULE 83:

Service under this schedule is subject to the provisions of Schedule 83, Electricity Conservation Service, contained in this tariff.

9. GENERAL RULES AND PROVISIONS:

Service under this schedule is subject to the General Rules and Provisions contained in this tariff.
