Subject: Contract for sale of water to Lincoln county.

Dear Mr. Danner,

Please accept and file the contract with Lincoln County. The company entered into the contract unaware that it needed to be filled with the commission. During the summer of 08 the price of diesel was in the \$5.00 dollar per gallon range. The company believes that the overall expense for hauling the water would have been much higher if they had to go somewhere else to get it, and therefore saved the community money.

Please call me at 509-725-0337 if you have any questions.

Sincerely,

Charles E. Spencer
Deer Meadows Water Company, Incorporated
