IMPORTANT NOTICE

May 30, 2009

We have asked the Washington Utilities and Transportation Commission (WUTC), to approve an application to adjust the rates for domestic and irrigation charges.

The increase in rates is in direct proportion to the increase in expenses and we are asking for a 30% increase in domestic water base rates. This would change the $\frac{3}{4}$ inch domestic line base rate to \$60.67 dollars, and the 1 inch domestic line base rate to \$101.32 dollars.

We are asking for an adjustment on the rates for irrigation, the proposal will change the irrigation from a flat rate fee to an adjusted per acre charge. All irrigation customers will be charged a single outlet capacity charge of \$225.00 dollars, and a per acre-irrigated fee of \$250.00 dollars. Customers with un-developed lots will be charged the single outlet capacity charge. Most customers will see a decrease in the annual amount due for irrigation. This will standardize our rates, on a per acre basis.

If you have questions about the filing and how it affects you, please call the office at 509-735-2151.

If you would like to comment on this filing, be added to the commission's mailing list, or have questions about the ratemaking process, please use the contact information below. You may comment by using the "Public Comment" feature at the commission's web site, at <http://www.utc.wa.gov>.
