SPECIAL EXCHANGE SERVICES

A. Custom Calling Features (Cont'd)

9. "Three-Way Calling with Transfer" allows a user ... (Cont'd)

- b. The subscriber of Three-Way Calling with Transfer can receive or originate the initial call. Three-Way Calling with Transfer allows the subscriber to originate both legs of a three way connection and subsequently disconnect, enabling the other parties to remain connected.
- c. Where the subscriber originates both legs of a three-way call, those legs will remain bridged together when the subscriber goes on hook when at least one of the legs is a call for which both the originating and terminating points are served by the same switch. Where the subscriber originates two inter-switch legs of a three-way call, both legs remain bridged when the subscriber goes on hook where the serving switch is not a 5ESS switch. For such calls in a 5ESS switch, both inter-switch legs are disconnected when the subscriber goes on hook.
- d. This feature shall not be used to extend calls on a planned and continuing basis to intentionally avoid the payment in whole or in part of message charges, toll or otherwise, that would regularly be applicable between the stations bridged together by the subscriber.
- e. The Three-Way Calling with Transfer subscriber is responsible for all applicable local and toll usage charges for calls originated by the subscriber, including connections which continue after the subscriber exits the call. The use of this feature by the subscriber to complete simultaneous outgoing calls may be subject to restrictions or prohibitions imposed by the Customer's Presubscribed Interexchange Carrier, if the calls are not in the Customer's local or expanded local calling area.

10. Outbound Call Block Feature

- a. This feature blocks all outbound dialing with the exception of abbreviated dialing for 911 (Emergency Reporting Services) and 711 (Service for Telecommunications Relay Services). In addition, all pay-per-use features are blocked.**
- b. All other Custom Calling Features and ExpressTouch Service features are prohibited with the use of this feature and lines equipped with this feature will not have a directory listing.**
- c. This feature is subject to the availability of facilities and is only available to One-Party Flat Rate Local Exchange Service for residence and business customers**
