Washington Utilities and Transportation Commission
Tariff Requests

Dear Ms. Washburn,

Evergreen Trails Inc, dba Gray Line of Seattle, hereby requests to raise the public tariff (#200) for our Downtown Airporter Service between the Seattle Tacoma International Airport and Downtown Seattle as follows:

Current

One-Way Adult - \$11.00
One-Way Child - \$8.25
Round Trip Adult - \$18.00
Round Trip Child - \$13.00

Proposed

One-Way Adult - \$15.00
One-Way Child - \$11.00
Round Trip Adult - \$25.00
Round Trip Child - \$18.00

The request to raise fares is driven by the increasing costs of fuel, salaries to our drivers, and insurance. As well, we have been negatively impacted with reduced revenues and passenger counts due to the economic conditions, reduction in Convention business in Seattle, and the introduction of the Light Rail service to Downtown Seattle. Since we initiated our last rate change in 2008, the rising costs of fuel, salaries and insurance, as well as the global economic downturn, have limited the viability of this service. We would like these tariff increases to take effect on June 1 of 2010. This will replace our existing Tariff #200.

I have included the following items as a means to support this action:

- Copy of our current tariff
- Copy of our Proposed Tariff
- Passenger Counts by Month
- Wage Analysis by Month
- Insurance Analysis by Month
- Customer Notification Posting

Best regards,
Joshua Krohn
Manager – Downtown Airporter Operations
