Jefferson County will no longer have rates pertaining to the entire county. Each zip code in the county is put into a rate category relevant to the cost of serving the area. The main service area is combined into one base rate until the new marker of "Outlying Area" of Hwy 101 & Hwy 112 on the West and Hwy 104 on the South.

Outlying Areas are too far for the shared van to serve directly with the continued very low volume. A car must be sent with another driver to bring to the shared van.

West End and Associated Zip codes have nearly zero bookings to make the area cost effective to serve inexpensively.
