

UE-110523

Energy Reporting Renewable Portfolio Standard (RPS)

Consensus Notes:

Workgroup consensus June 21, 2011 on product outcome of Workshop #2 May 10, 2011

Notes:

- Consensus:
June 2012 report filing:
 - a. Renewable Energy Credits (RECs) owned or under contract by 1/1/2012
 - b. 2012 target for REC's = actual load for 2010 and 2011 (actual, not weather adjusted.)
 - c. 06/01/2012 Report: 2012 target REC's "in hand" by 01/01/2012, plan for any shortfall (if actual wind generation is low or "in hand" less than actual target.)

- January internal report will include actual as known and estimates for most recent months.
