

ACCESS SERVICE

2. General Regulations (Cont'd)2.3 Obligations of the Customer (Cont'd)2.3.10 Jurisdictional Report Requirements (Cont'd)(B) Jurisdictional Reports (Cont'd)

(7) (Cont'd)

The customer shall forward the revised report to the Telephone Company, to be received no later than 15 days after the first of each such month, (i.e., January, April, July and October). The revised report will serve as the basis for the next three month billing (i.e., beginning the first of February, May, August and November) and will be effective on the customer's bill date for that service. No prorating or backbilling will be done based on the report.

If the customer does not supply the revised reports, the Telephone Company will assume the percentages to be the same as those provided in the last quarterly report. For those cases in which a quarterly report has never been received from the customer, the Telephone Company will assume the percentages to be the same as those provided in the order for service as set forth in (1), (4) and (5) preceding.

- (8) When a customer orders Common Channel Signaling/Signaling System 7 (CCS/SS7) Interconnection Service from the CenturyLink Operating Companies Tariff F.C.C. No. 9, as specified in Section 6.1.2(B)(6), the customer shall provide to the Telephone Company, in its order for the service, a CCS/SS7 Interconnection Service Percent Interstate Usage (PIU) Report for the state from which the service is ordered. Common Channel Signaling/Signaling System 7 (CCS/SS7) Interconnection Service is not offered in Washington's intrastate jurisdiction.

ACCESS SERVICE

5. Ordering Options for Switched and Special Access Service (Cont'd)5.2 Access Order (Cont'd)5.2.1 Access Order Service Date Intervals

Access Service is provided with one of the following Service Date Intervals:

- Standard Interval
- Negotiated Interval

To the extent the Access Service can be made available with reasonable effort, the Telephone Company will provide the Access Service in accordance with the customer's requested interval, subject to the following conditions:

(A) Standard Interval

The Telephone Company shall publish and make available to all customers a schedule of standard intervals applicable for Switched and Special Access Services. The schedule specifies the services and quantities that can be provided within the published interval. The access order standard intervals are contained in the United Telephone System Access Service Installation Guidelines. Information necessary to order this document can be found in the Reference to Other Publications section of CenturyLink Operating Companies Tariff F.C.C. No. 9.

(T)
(T)

Access Services provided with a standard interval will be installed during Telephone Company business day. If a customer requests that installation be done outside of normally scheduled working hours, and the Telephone Company agrees to this request, the customer will be subject to applicable Additional Labor Charges as set forth in Section 13.2.6 following.

(B) Negotiated Interval

The Telephone Company will negotiate a service date interval with the customer when:

- (1) There is no Standard Interval for the service,
- (2) The quantity of Access Services ordered exceeds the quantities specified in the standard intervals, or
- (3) The customer requests a service date beyond the applicable Standard Interval service date.

ACCESS SERVICE

15. Common Channel Signaling/Signaling System 7 (CCS/SS7) Data Base Services (Cont'd)15.1 Line Information Data Base (LIDB) Access Service (Cont'd)15.1.2 Description (Cont'd)

All access to the Telephone Company's LIDB will occur through two Telephone Company interconnecting STPs located in Johnson City, Tennessee and Bristol, Tennessee. The Telephone Company will provide customer interconnection to the Telephone Company interconnecting STPs through its Common Channel Signaling/Signaling System 7 (CCS/SS7) Interconnection Service provided in Section 6.8.2(G) of CenturyLink Operating Companies Tariff F.C.C. No. 9.

(T)
(T)(A) Limitations

Unless expressly authorized in writing by the customer and the Telephone Company, LIDB Access service is not to be used for purposes other than those LIDB functions described in 15.1.2 preceding. LIDB Access Service is to be used for those services only on a call-by-call basis and data accessed on LIDB may not be stored elsewhere for future use.

Proprietary information resident in the Telephone Company LIDB is protected from unauthorized access and may not be stored in a customer's data base for any reason. All information related to alternate billing services is proprietary. Some examples of proprietary information are as follows:

- Billed Number (resides in the Telephone Company LIDB)
- Pin Number(s) (resides in the Telephone Company LIDB)
- Billed Number Screening (BNS) indicators (resides in the Telephone Company LIDB)
- Reports on LIDB usage
- Information related to billing for LIDB usage
- LIDB usage statistics

(B) Rate Categories

There are two basic elements which apply to LIDB Access Service: Query Transport and Query.

(1) Query Transport

The Query Transport rate element provides for the transmission facilities between the Telephone Company's STPs located in Johnson City, Tennessee and Bristol, Tennessee and the Telephone Company SCP where the LIDB resides.
