

Cristalina Water Company

IMPORTANT NOTICE

September 09, 2011

Cristalina Water Company has filed for approval from the Washington Utilities and Transportation commission to increase rates by an additional \$64,840 (271%) annually. If approved, the rates will be effective on October 15, 2011.

The company also proposes to switch from the current monthly flat rate to metered rates. The metered rate will be in addition to the current surcharge being used to repay the State Revolving fund loan for recent water system upgrades.

The need for increased revenue is to cover the increased cost of a water operator, the added expense of extra hours for bookkeeping, the cost of a meter reader and to cover costs of additional software designed for metered billing.

****Surcharge will expire on April 30, 2019**
