NOTE: Puget Sound Energy, Inc. has reconciled the lines identified in this Exhibit A with the lines identified in Exhibit A to the Petition for a Declaratory Order and Accounting Order filed in Docket No. UE-010010. PSE believes that the lines identified in this Exhibit A reflect all of the modifications and changes that may have occurred to PSE's 55 kV – 115 kV transmission system. Nonetheless, it is possible that PSE may have inadvertently omitted a line that PSE intends to reclassify as a transmission facility, and PSE requests that the order allow PSE to make administrative changes as necessary.
