COMMERCIAL/INDUSTRIAL CONSERVATION PROGRAM

AVAILABILITY:

This program is available throughout Cascade's Washington service territory to qualifying commercial and industrial customers served on rate schedules 504, 505, 511, 570, and 577 upon meeting the requirements contained in the following specifications section.

PROGRAM DESCRIPTION:

This program is designed to increase energy efficiency in commercial/industrial facilities within Cascade's service territory by providing rebates for the installation of certain energy efficiency measures in qualifying facilities.

MEASURES/INCENTIVES:

The following measures are deemed cost-effective and may be recommended under this program. Energy efficiency measures not listed may still be eligible for custom incentives providing the incremental costs of the measure do not exceed \$.75 per therm saved. Incentives for site-specific program measures will be based on 25% of the avoided cost savings of the measures, not to exceed 50% of the incremental cost of the measure. Mixed purpose facilities that include buildings on both Residential Rate Schedule 503 and qualifying Rate Schedules 504, 505, 511, 570 and 577 as part of the same Cascade Natural Gas Company customer account shall also be eligible for custom conservation incentives as described in this tariff and under the most recent terms and conditions of this program.
