5. Exchange Services

5.2 Local Exchange Service

5.2.10 Local Service Options

C. Hunting Service

1. Description

Hunting Service is provided in all Company central offices. This service is offered subject to the capabilities of the central office providing the hunting arrangement. This service applies to Network Interface Lines and complex services including key lines, data lines and FX lines.

- a. Hunting Service is offered in two categories:
 - Series completion service
 - Multiline hunt service
- b. Residence customers may subscribe to series completion service.
- c. The Hunting Service available in any given central office will depend on the type of central office equipment provided.
- d. The limitations on hunting service will vary by the type of central office offering the service.
- e. Hunting Service is not available on multiparty lines.
- f. The Custom Calling Service feature, Call Forwarding, will override the Hunting Service provided.
- g. If the customer converts from a series completion service to multiline hunt service, the nonrecurring charges for a multiline hunt service apply.
- h. Hunting Service as specified in this Section does not apply to PBX DID trunk groups.
- i. Hunting Service will affect the operation or availability of some other optional features on the hunting lines. The features most often affected include forms of Call Forwarding, **Remote Call Forwarding**, **Remote Call Forwarding-Measured**, Call Waiting, Call Transfer, Speed Calling and others, depending on the service configuration. (T)
(T)
- j. Series completion service cannot be added to multiline hunt service.
- k. There will be no charge to change hunting arrangements due to the removal of lines from a hunt group.

5.4.10 Remote Call Forwarding - Measured

A. Description

Remote Call Forwarding – Measured (RCFM) is an arrangement whereby a call placed from an originating number (Calling Party) to a customer's (RCFM Customer) telephone number (the call forwarding location) is automatically forwarded by Company central office equipment to another telephone number (the terminating number) designated by the RCFM Customer.

B. Terms and Conditions

1. RCFM is furnished to business and residence customers, subject to availability of suitable facilities, in central offices where operating conditions permit. When the RCFM number is to be located in a multi-office exchange, the company will determine the serving office.
2. RCFM may not be used to terminate calls to a payphone access line.
3. The Company will not provide identification of the originating telephone number to the RCFM Customer.
4. Transmission characteristics may vary depending on the distance and routing necessary to complete the remotely forwarded call. Therefore, RCFM is not guaranteed for satisfactory transmission of data.
5. Each RCFM allows for forwarding one call at a given time. A subsequent RCFM or path is necessary for each additional call to be forwarded simultaneously. A condition of providing RCFM is that the customer orders sufficient RCFM features and facilities to adequately handle calls to the RCFM Customer without interfering with or impairing any services offered by the Company. If, in the Company's opinion, additional RCFMs are required at the call forwarding location or if facilities are needed at the terminating station, the customer will be required to subscribe to additional RCFM features and facilities. Should the customer refuse to subscribe to additional RCFM features and/or facilities, the customer's RCFM will be subject to termination.

5. Exchange Services

5.4 Premium Exchange Services

5.4.10 Remote Call Forwarding - Measured (RCFM) (Cont'd)

B. Terms and Conditions (Cont'd)

6. One listing in the alphabetical section of the directory covering the exchange in which the RCFM central office is located is provided without additional charge. Customer may subscribe to additional listings at the rates specified elsewhere in this tariff. Business listings consist of a subscriber's business name, designation descriptive of the subscriber's business, and the telephone number. At the subscriber's discretion, its business listing also may include subscriber's business address, which must be the physical address of the active business location where Subscriber renders service.
7. RCFM is not eligible for Vacation Service (temporary suspension).
8. Neither RCFM nor Call Forwarding will be available as a feature on the RCFM terminating number.
9. If the use of RCFM is primarily or substantially of business, professional, institutional, or otherwise occupational nature, i.e., nonresidential, or if the listing used is such as to indicate nonresidential use, then calls will not be forwarded to any telephone number for which residential rates apply.
10. Message detail is not provided for local calls when RCFM is used on a local basis.
11. When the RCFM central office and terminating number are not in the same local calling area, the RCFM Customer must select a toll provider when the order is placed. Applicable toll charges will be billed by the RCFM Customer's toll provider at its established toll rates.
12. The nonrecurring charge specified in C following will apply in lieu of any other service charges for establishment of each RCFM facility and for a change in the telephone number at the Call Forwarding location and/or to change the telephone number to which calls are forwarded at the request of the customer.

5.4 Premium Exchange Services

5.4.10 Remote Call Forwarding - Measured (RCFM) (Cont'd)

C. Rates and Charges

1. The following monthly and nonrecurring charges apply for each RCFM facility (call path):

	<u>Nonrecurring Charge</u>	<u>Monthly Rate</u>
Business and Residence	\$41.00	\$22.00

2. Message/usage charges are comprised of two separate charges:
 - a) The Calling Party is responsible for any applicable local or long distance charges from the originating number to the RCFM telephone number, as determined by the Calling Party's service provider(s).
 - b) The RCFM Customer is responsible for any applicable charges for calls forwarded from the RCFM central office to the terminating number.
 - 1) Toll charges as determined by the RCFM Customer's long distance provider apply when the RCFM central office location is not in the local calling area of the terminating telephone number.
 - 2) Local usage charges specified following apply for each call forwarded when the RCFM central office is in the same local calling area (home and EAS) of the terminating telephone number. Fractional minutes are rounded up.

Rate per minute, or each fraction thereof	\$0.03
