RE: 81.68.015 restrictions to 81.68

Dear Mr. Danner:

We are requesting approval of updates to our authority to operate two scheduled services (Travel Washington Grape Line & Travel Washington Gold Line) that are being funded under grants from the Washington State Department of Transportation.

CWA, Inc was given the auto transportation authority (RCW 81.68) to operate a schedule bus service between Walla Walla and Pasco on docket 080207. This service called the Grape Line, is being operated under a contract CWA, Inc has with the Washington State Department of Transportation.

RCW 81.68.015 discusses when the application of chapter 81.68 is restricted. One of the restrictions is any operation that is funded by a grant issued by the department of transportation.

Since the Grape Line is funded by a grant from the DOT we are requesting that our service be exempt from UTC regulation and fees.

Similarly CWA, Inc also operates the Gold Line which is a scheduled service that is funded by a grant from the Washington State Department of Transportation.

For the same arguments as submitted above we are requesting that our Gold Line service be exempt from UTC regulation and fees.

CWA, Inc does have the charter permit (C-63162) that RCW 81.68.015 requires.

Sincerely

Richard Johnson
President – CWA, Inc
