Section 9: Payment

Bills are issued net, are due and payable when rendered, and become past due after fifteen days from date of bill. Payment of migration charges, if billed in a single month, may be made in equal payments over twelve months without interest upon notice to the Company. (N)

Section 10: Balancing Services--Program Description

Balancing service is included in the transportation service commodity charge under the applicable rate schedule. This service will provide daily balancing equivalent to the difference between the Customer's daily Confirmed Nomination and daily delivered volumes. All accumulated daily delivered volumes during a billing period are subject to the monthly balancing provisions of this rule. Balancing service is subject to the terms and conditions of this rule and may be modified during constraint periods as described in Section 13 below.

Section 11: Balancing Services--Monthly Balancing

- 1. Daily delivered volumes will be accumulated at the end of the current billing period and shall be equal to the Customer's total Confirmed Nominations for the current billing period. For any accumulated delivered volumes not equal to accumulated Confirmed Nominations, the provisions in Paragraphs 2, 3, 4 and 5 of this section apply. The Company will communicate on each business day (Monday through Friday except holidays) to the Customer and/or Customer's Agent (as authorized by Customer) information regarding any imbalance (Overrun or Underrun) on a business day basis. The monthly bill, typically issued in the first week of the month for the prior month's service, will include, either with the bill or as a separate mailing, any cumulative imbalance and is notice to the Customer of such imbalance.
