LOCAL NETWORK ACCESS SERVICES

COLLOCATION SERVICE

12. RATE REGULATIONS

12.1 RATES AND CHARGES

Except as otherwise described herein, the rates for Company collocation services provided pursuant to this tariff are set forth in Section 14 following. The tariffed rates herein may be superseded by rates contained in future regulatory orders or as otherwise required by legal requirements.

12.2 Billing and Payment

The initial payment of nonrecurring charges (NRCs) shall be due and payable in accordance with Section 4.1 preceding. The balance of the NRCs and all related monthly recurring service charges will be billed to the CLP when the Company provides CLP access to the caged, cageless or adjacent collocation arrangement and shall be payable in accordance with applicable established payment deadlines.

12.3 Extraordinary Charges

Collocator will be responsible for all extraordinary construction costs, incurred by Frontier to prepare the Collocation space for the installation of Collocator's equipment and for extraordinary costs to maintain the Collocation space for Collocator's equipment on a going-forward basis. Extraordinary costs may include costs (but not limited to) for such items as asbestos removal, fire suppression system or containment, modifications or expansion of cable entry facility, increasing the DC power system infrastructure capacity, increasing the capacity of the AC system (if available), or of the existing commercial power facility, installation, maintenance, repair, monitoring of securing measures, conversion of non-Collocation space, or other modifications required by local ordinances. Ordinary costs may become extraordinary by their unusual nature (e.g. volume that is substantially beyond the average or typical Collocation arrangement or request) or its infrequency of occurrence (e.g. construction that will benefit only the requesting Collocator).

Frontier will charge a one-time, non-recurring fee for extraordinary costs on a time-sensitive or time-and-materials basis. Extraordinary costs will only be billed upon receipt of the signed acceptance and construction will not begin until receipt of the Collocator's signed acceptance and payment.

13. DESCRIPTION AND APPLICATION OF RATE ELEMENTS

13.1 Non-Recurring Charges

The following are non-recurring charges (one-time charges) that apply for specific work activity.

(A) Engineering/Major Augment Fee

The Engineering/Major Augment Fee applies for each initial Caged, Cageless, Virtual, or Microwave collocation request and major augment requests for existing Caged, Cageless or Virtual collocation arrangements. This charge recovers the costs of the initial walkthrough to determine if there is sufficient collocation space, the best location for the collocation area, what building modifications are necessary to provide collocation, and if sufficient DC power facilities exist in the premises to accommodate collocation. This fee also includes the total time for the Building Services Engineer and the time for the Outside Plant and Central Office Engineers to attend status meetings.

Items 13.1 B. and C. transferred to Sheet 42.

13. DESCRIPTION AND APPLICATION OF RATE ELEMENTS (Cont'd)

13.1 Non-Recurring Charges (Cont'd)

(B) Minor Augment Fee

The Minor Augment Fee applies for each minor augment request of an existing Caged, Cageless, Virtual, or Microwave collocation arrangement that does not require additional AC or DC power systems, HVAC system upgrades, or additional cage space. Minor augments are those requests that require the Company to perform a service or function on behalf of the CLP including, but not limited to: installation of Virtual equipment cards or software upgrades, removal of Virtual equipment, requests to pull cable from exterior microwave facilities, and requests to terminate DS0, DS1 and DS3 cables.

(C) Access Card Administration

The Access Card Administration rate covers activities associated with the issuance and management of premises access cards. The rate is applied on a per card basis. The rate is also applied to cover the cost of keys or other means of obtaining access to Company buildings.

(D) Cage Enclosure

The Cage Enclosure rate is applied per caged arrangement. This rate includes the labor and materials to recover all the costs incurred in constructing the CLP's cage and cage gate. There are five caged enclosure rate elements based on the size of the cage: 25 to 100 square feet; 101 to 200 square feet; 201 to 300 square feet; 301 to 400 square feet; and 401 to 500 square feet.

(E) Cage Enclosure Augment

The Cage Enclosure Augment rate is applied per square foot of fencing when a CLP requests additional fencing for an existing caged arrangement.

(F) BITS Timing

The non-recurring charge for BITS Timing includes engineering, materials, and labor costs to wire a BITS port to the CLP's equipment. If requested, it is applied on a per project basis.

(G) Overhead Superstructure

The Overhead Superstructure charge is applied for each initial caged and cageless collocation application. The Overhead Superstructure charge is designed to recover the Company's engineering, material, and installation costs for extending dedicated overhead superstructure.

Items 13.1 B. and C. transferred from Sheet 41.
