

**NOTICE
PACIFIC POWER AND LIGHT COMPANY**

Pursuant to Washington Law (including without limitation RCW 80.28.050 and -060) and the Washington Utilities and Transportation Commission's (the "Commission") Rules & Regulations, Pacific Power and Light Company has filed with the Commission the original tariff schedules for electric service in the State of Washington.

Overview

The Company's current avoided cost prices and Schedule 37 became effective in April 2012. Since that time resource requirements, natural gas prices, and market prices have changed, as have the Company's avoided costs. This filing updates the Company's estimated avoided cost prices and Schedule 37 based on the costs that the Company would expect to pay "but for" the Qualifying Facility resource.

The Commission will examine the Company's proposed tariff sheets. As a result of such examination, the Commission may determine that any or all of said schedules should be accepted as filed, modified or rejected.
