RE: Major Event Report—September 5-6, 2013

PacifiCorp d/b/a Pacific Power & Light Company (Company) is claiming major event exclusion for the outages that affected its Walla Walla service territory on September 5-6, 2013.

The basis for exclusion is the number of customers affected and the damage that occurred to the Company's facilities in each event. Please find attached the details regarding the major event including costs incurred, restoration resources, number of customers off supply, customer minutes lost, and SAIDI, SAIFI, MAIFI figures.

The Company will exclude outage information for this event from its network performance reporting and from customer guarantee failure payments.

Please direct any informal inquiries regarding this filing to Bryce Dalley, Director, Regulatory Affairs & Revenue Requirement, at (503) 813-6389.

Sincerely,

William R. Griffith
Vice President, Regulation

Enclosures

<p style="text-align: center;">Report to the Washington Utilities and Transportation Commission Electric Service Reliability - Major Event Report</p>

Date:	September 5-6, 2013
Date Submitted:	October 8, 2013
Primary Operating Area(s) Affected:	Walla Walla
Exclude from Reporting Status:	Yes
Report Prepared by:	Diane DeNuccio
Report Approved by:	Heide Caswell

Event Description:

The Pacific Power Emergency Action Center was activated as of 11:56 a.m. on Friday, September 6, due to a severe thunderstorm that swept through the Company's Washington service territory on Thursday night, September 5, causing significant interruptions beginning at approximately 5:30 p.m. due to heavy rains and wind gusts of 60 miles per hour. Lightning and vegetation into facilities caused loss of supply due to downed wire, broken poles and blown fuses in all areas but primarily and most significantly in Walla Walla.

Customers Out Sustained: 11,821
Total Customer Minutes Lost: 5,223,698
Sustained Interruptions: 136

PacifiCorp is requesting this event and the consequences thereof to be classified a "Major Event" because it exceeded the design limits of the system and the Company's current annual IEEE 1366-2003 threshold of 1,430,667 customer minutes lost in a 24-hour period in Washington.

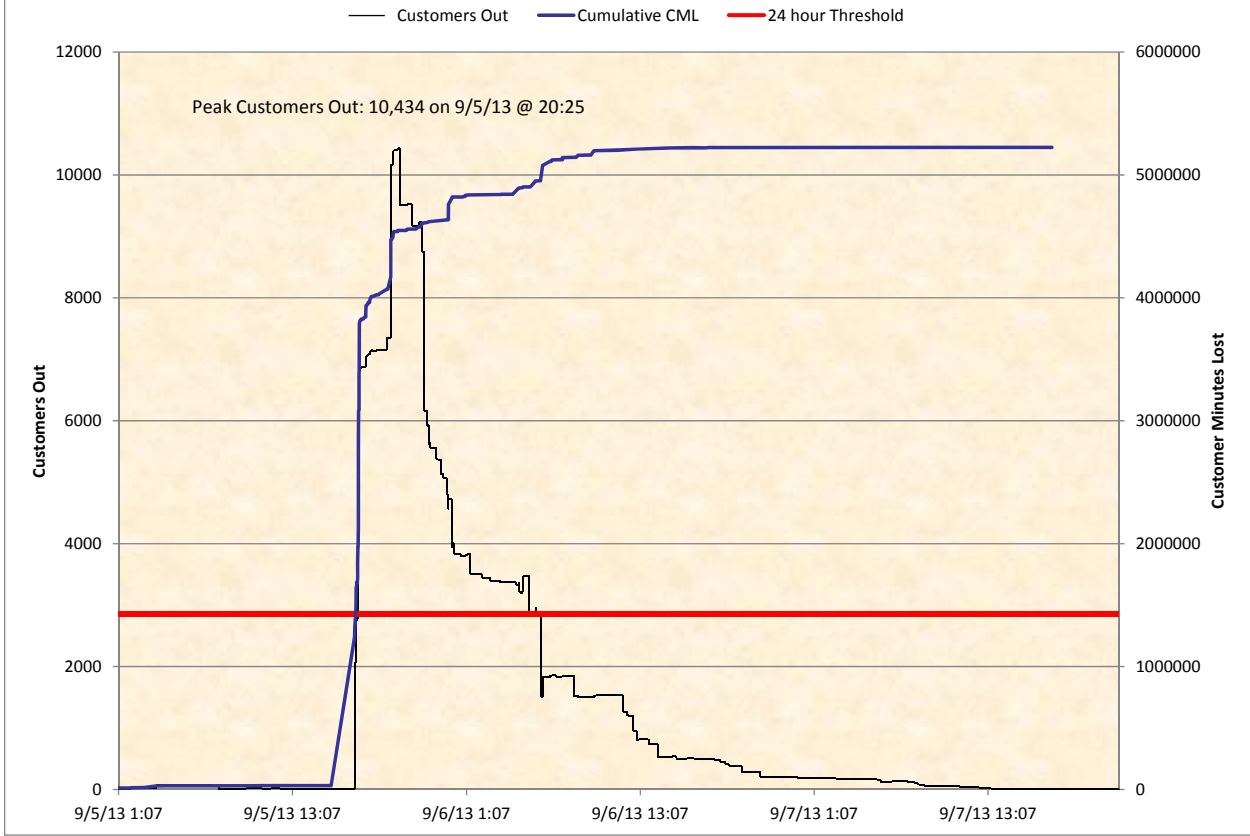

Restoration Description:

Additional company crews from Hood River, Madras, Bend, Pendleton, Portland and Astoria, along with contract and vegetation crews, helped local crews fix downed lines, damaged poles and other storm-related damage.

SAIDI, SAIFI, MAIFI Report: Attached
