

**REPORTS AS REFERENCED IN WAC 480-123-070
AND WAC 480-123-080**

Hat Island Telephone Company (the “Company”) hereby submits the following reports in accordance with WAC 480-123-070 and WAC 480-123-080.¹

Report 1: WAC 480-123-070(1)(a): Attached is a copy of the Company’s NECA-1 Report for the calendar year 2013,² that, as of the date of the report, the Company has reported as the basis for support from the federal high-cost fund. That report also includes certain data for the calendar year 2012.

Report 2: WAC 480-123-070(1)(b): The Company reports that the investments and expenses reported under Report 1, above, benefited customers as follows:

Through the expenditure of these funds, the Company was able to continue to provide services at a level that the Company believes meets the intent set forth in 47 U.S.C. § 254 of providing high quality telecommunications services to customers in the service area for which the Company is designated as an ETC.³ The Company has made expenditures and investments over the past several years, which allow it to provide quality telecommunications services to its customers in its designated ETC service area. Those expenditures and investments, including those reflected in Report 1 above, generally benefit all customers receiving the federal high-cost fund supported services⁴ from the Company within its designated ETC service area.

Report 3: WAC 480-123-070(4): During the calendar year 2013, the Company did not receive from either the Federal Communications Commission or the Consumer Protection Division of the Office of the Attorney General of the State of Washington any complaints against the Company made to them by the Company’s customers.

Report 4: WAC 480-123-080(1)(b) and (2): The Company reports as follows:

As they are known to the Company at the date of this Report and except as described in the next paragraph below, the planned investment and expenses related to Washington state for the periods January 1, 2014, through December 31, 2014, and January 1, 2015, through December 31, 2015, that the Company expects to use as a basis to request federal high-cost fund support for those periods, respectively, are expected to be relatively similar to those investments and expenses the Company has set forth in its information for calendar year 2013 filed under Report 1, above, taking into account normal fluctuations in investment and expense levels. The Company expects that levels of

¹ It is the Company’s understanding that it is not required to submit the reports described in WAC 480-123-070(2) and (3).

² National Exchange Carrier Association, Inc. Universal Service Data Collection Form 2014-1.

³ The term “ETC” is used herein with the same meaning as the term is used in Chapter 480-123 WAC.

⁴ References herein to the services supported by the federal high-cost fund refer to the services designated for support as set forth in 47 C.F.R. § 54.101(a).

expenses in each of those years will remain relatively the same as those it experienced in calendar year 2013, subject to the effects of inflation and other commonly experienced changes in cost of labor and materials. The Company expects that, in each of the calendar years 2014 and 2015, it will have relatively the same level of expenditure and investment related to maintenance, replacement and minor upgrades of telecommunications equipment and plant as occurred in calendar year 2013.

The expected benefit to customers from the anticipated investment and expenditures is that customers will continue to receive a high level of telecommunications service. The Company further expects that the receipt of federal high-cost fund support will aid the Company's effort to continue to provide the supported services at rates that are reasonably comparable to the rates for such services in urban areas. However, the Company projects that with reductions in intercarrier compensation and associated federal support, those efforts will need to be supplemented by support from the state universal communications services program for the Company to be able to continue to maintain reasonably comparable rates. All customers in the Company's designated ETC service area will benefit from the expected level of support by continuing to have available to them services that are reasonably comparable to the telecommunications services offered in urban areas at rates that are reasonably comparable to the rates for such services in urban areas.
