RE: The operation at Pinewood ID#45507P, at Piper #00887P and at Lightmoor ID #66934K.

Dear Home owners;

This letter is to serve as notification to the home owners of Pinewood, Piper and Lightmoor that T&T Professional Services also known as Water and Wastewater Management Services who has operated your water service since 2004, will again operate these systems.

We have been informed by the Department of Health that we did not follow "WAC procedures" when we deeded the water systems to the home owners of these systems. Even though we followed directions from the UTC, Department of Health states that we must give one year notification to the current home owners of the above named water systems and the decision to cease operation and ownership of these water systems. The letter date June 17<sup>th</sup>, 2014 that was sent to all home owners and the UTC along with this letter to serve as the notification of our decision to cease operations and ownership on June 17<sup>th</sup>, 2015.

T&T Professional Services (Also known as Water and Wastewater Management Services, LLC) will continue to operate the above named water systems, until June 17<sup>th</sup>, 2015. At this time the home owners will have time to have in place an ownership plan, to own, operate and maintain these systems.

As we have previously stated in our letters and our telephone calls, it is not our desire to operate or own these systems but would like to start a path of transition as required by department of health.

Please feel free to contact me with specific questions as we work thorough this transition together.

Sincerely and Best Regards,
