**PUGET SOUND ENERGY, INC.**

---

**NATURAL GAS SCHEDULE NO. 101** (T)  
**Gas Cost Rates** (Continued)

4. **Rate for Propane Service:** The rate to be paid for residential propane supply provided under Schedule No. 53 shall include the weighted average cost to the Company for propane fuel inventory as reported quarterly to the Washington Utilities and Transportation Commission. The average cost of propane shall not be less than the amount per therm listed below in column (b) and shall not exceed the amount listed below in column (c). (T)

---

Schedule No.	COST OF PROPANE		
	Minimum Cost	Maximum Cost	
	Per Therm	Per Therm	
(a)	(b)	(c)	
53	\$3.73932	\$4.80769	(l) (l)

---

The rates named herein are subject to increases as set forth in Schedule No. 1.

**PUGET SOUND ENERGY, INC.**  
**Natural Gas Tariff**

**SCHEDULE NO. 53** (T)  
**Propane Service**

**1. Availability:** (T)

1. This schedule is available throughout territory served where, based on its plans for facilities extensions, the Company believes future economic justification is likely for facilities extensions to the Customer's premises under Rule No. 7 of this tariff.
2.
  - a. This schedule is restricted to new housing developments or energy conversion applications where two or more residential premises are served by a propane source or sources, and delivered to structures through underground distribution and metering facilities suitable for future delivery of natural gas service.
  - b. This schedule is available based on requirements set-out in PSE's Operating Standards, approval of all applicable jurisdictions and local and national codes related to propane storage and distribution to residential structures.
  - c. Subject to the terms and conditions of the Company's Rule No. 7-Extension of Distribution Facilities.
3. Service under this schedule is provided on a temporary basis and will cease when natural gas service becomes available at the Customer's property or when service does not comply with government regulations or accepted natural gas industry standards. (N)  
(N)
4. Appliances to be served under this schedule must be convertible to natural gas according to the manufacturer's specifications and installed in accordance with applicable safety codes. All gas piping must be sized adequately according to natural gas sizing tables. Any unsafe installation or operating condition found by the Company may be cause for refusal of service.
5. The location of the propane source or sources and underground distribution facilities will be at the sole discretion of PSE and may be moved, replaced or relocated within or onto the Customer's property to meet operational or safety requirements, government regulations or accepted natural gas industry standards. (N)
