RE: Rabanco Ltd. / Eastside Disposal / Republic Services Tariff Revision (additional service request)

Dear Mr. King,

Enclosed please find proposed tariff No. 11 of Rabanco LTD, Certificate G-12 (DBA Eastside Disposal, Republic Services of Bellevue), the purpose of which is to add service for customer requested bear proof carts. Such carts require more capital investment which is reflected in higher rental charges and additional service time to manually unlock prior to tipping. The included tariff pages contain costs for rental and service costs as well as supporting documentation used to calculate what the company believes is a fair price. If approved we are asking these changes to the tariff become effective November 25<sup>th</sup> as per WAC 480-70-262.

Sincerely,

Connor Vander Zalm
