RE: Tariff WN U-29 (Schedule 149 Tariff Modification)

Attached for electronic filing with the Commission is the Company's proposed tariff revision:

First Revision Sheet 149 Canceling Original Sheet 149

The primary purpose of this filing is to incorporate changes to Schedule 149, "Backup and Supplemental Compressed Natural Gas Service", to allow for the pass through of the exemption from state utility tax as provided by RCW 82.16.310.

RCW 82.16.310 was enacted to allow an exemption from the state utility tax for natural gas service that is either sold as compressed natural gas or for natural gas service where the customer then produces CNG or LNG. In both situations the CNG or LNG must be sold for, or used as, transportation fuel. This filing will allow Avista to pass through the benefits of this exemption to those customers following compliance with the provisions of RCW 82.16.310.

Avista requests the tariff revision to become effective July 15, 2015. If you have any questions regarding this filing, please contact me at 509-495-8620.

Sincerely,

A handwritten signature in black ink that reads "Patrick Ehrbar".

Patrick Ehrbar
