## **IX. Comments**

On April 19, 2016, Michael D. Chance was struck and fatally injured by a eastbound frieght train at milepost 17.4 on the main track at the Edmonds Amtrak station.

Edmonds Police Department responded and investigated the scene. When they arrived, they found the train stopped on the main track. The train was stopped 200 ft north of the Amtrak station.

The locomotive engineer stated he was traveling eastbound when he observed a young male running out from the Edmonds Depot and ran into the middle of the main track and faced the train. Several other witnesses observed the same thing. The individual then crossed his arms over his chest and made no attempt to move from the trains path. The engineer stated he was moving at 36-38 MPH on impact. The engineer stated that he blew the horn, and his headlights and bells were activated and brakes were applied. The Event Data Recorder showed that he did indeed sound the horn.

Cause Code: Description:
Cause: Which Car / Locomotive, etc.?

**Brief Narrative of Incident:** 

1415-CT 04-19-16 Scenic Sub MP 17.4: H LYDVBT1-18 reports striking a trespasser at Edmonds, WA AMTRAK depot. No injuries to crew, crew reports trespasser was fatally injured.

1557 CT update from TM Grachan: Coroner should be releasing train within 20 minutes. We will have to land train at Bayside as consist will require mechanical inspection.

1644 CT update from TM Grachan: Train is pulling now but will need 10 minutes behind the train for any possible clean up.

1655 CT update from TM: Area cleared and full traffic resumed.

1830 CT update from TM: Train was traveling between 36-38 MPH after coming out of a slow order. The incident occurred at the Sounder Station. The individual was sitting on the platform and when he saw the train coming he stood up in front of the train with his arms in the air.
