

Hello,

I am sending in the regulatory fee payment but need to request an extension on the rest of the report. I missed the May 15th deadline as I have been dealing with caring for my Mom since she was diagnosed w/ Alzheimers in January 2016. I have not been home in almost 4 months as we are dealing w/ making arrangements for her care, as well as the many other things associated with this difficult situation. On my recent trip home I found the paperwork for this report but need to ask for an extension, please. I am sorry I missed the May 15th deadline! Please consider this request and let me know if this is acceptable to you. Thank you so much
