RE: Skagit County Solid Waste Management Plan

Dear Diana:

This letter is a request for Ecology to conduct a review of the preliminary draft of the Skagit County Solid Waste Management Plan. Please forward copies of the plan to the UTC and the Department of Agriculture for their review and comment as well.

This plan is also undergoing public review at this time. When that process has been completed, we will send you a compilation of the comments received and our proposed responses to those comments.

I can be reached at (360) 416-1441 if you have any questions or need additional information.

Sincerely,

Margo Gillaspy, LHg
Solid Waste Division Manager
