

Memorandum

Date: April 7, 2017 [REDACTED]
To: CenturyLink [REDACTED]
From: [REDACTED]
Subject: State Safety Valve Numbering Request for 2500 DID numbers at [REDACTED]
[REDACTED]

The [REDACTED] is constructing a new consolidated [REDACTED] in Des Moines, WA and request [REDACTED] DID. These DID will provide service for the next 20 years. CenturyLink is our preferred provider as they are on the [REDACTED] and entrance facilities are being provided by CenturyLink. It is our understanding this request is going to the state utility commission. It is important we know whether or not this request will be granted. [REDACTED]

1. Date of request *April 7, 2017*

2. Location of service and reason for the specific request
[REDACTED]

3. Quantity of TNs customer requires and (if applicable) any existing TNs that will be returned.
[REDACTED]

4. Date customer wants TNs available for service and the date they will actually be used. *TN number assignments need to be provided by August 15th, 2017 for employee assigning [REDACTED].*
[REDACTED]

5. Specific TN range requirements, and why those ranges are needed.
[REDACTED]

6. Specific NXX requirements/restrictions, and the reason for the specific request.
Cannot use station numbers that begin with 0, 1 or 9 because of internal dialing plan

If more information is required call [REDACTED]
