RE: Bainbridge Disposal, Inc., G-143, Commodity Credit Revision Filing

We are filing proposed revised tariff, Pages No. 2 Check Sheet, No. 22 Item 100-Residential Service-Monthly Rates and No. 27 Item 105-Multi-Family Service-Recycling for Tariff No.16 on behalf of Bainbridge Disposal, Inc., G-143.

This filing proposes a residential recycling commodity adjustment increase of \$.20 from the previous debit of \$.68 per customer to a debit of \$.88 per customer. This filing also proposes a multi-family recycling commodity adjustment decrease of \$.04 from the previous debt of \$.32 per customer to a debit of \$.28 per customer.

These changes are due to the overall reduction in commodity values since the previous commodity credit adjustment on April 1, 2017. During 2017 the Company's net payments to the processor were \$81,000 compared to payments of \$62,000 during the previous year. Because the current Company rates incorporated recycling disposal fees of approximately \$34,000, the Company is not requesting a debit allowance for this amount, and has only included fees in excess of the approximately \$34,000 in costs already incorporated into rates.

We are requesting the proposed effective date for the tariff revisions to be April 1, 2018.

Enclosed for staff review are the accounting work papers for this filing and pricing support. The Company will notify all customers during the normal billing process.

A copy of this transmittal letter will be mailed to the Chair of the Kitsap County, WA Commissioners and City Manager of the City of Bainbridge Island, WA.
