EXHIBIT 3

EXHIBIT 3

DEMONSTRATION OF RISK OF RATE INSTABILITY OR SERVICE INTERRUPTION OR CESSATION

The operating environment in which the Company finds itself has created a climate of great financial uncertainty. The Company has been working over the past several years to address growing competition. The Company has taken steps to increase the availability and attributes of advanced services offered by the Company, including broadband. This has resulted in the Company making additional investments in regulated plant of approximately \$11,187 during the period January 1, 2011 through December 31, 2017.

The overall financial condition of the Company is detailed on other Exhibits to this Petition. What this information demonstrates is that, when adjusted to eliminate the support from the state Universal Communications Services Program that the Company received or accrued in 2017, the Company's total regulated revenue decreased by 29% from 2011 through 2017. The Company has looked for ways to lower expenses.

At the same time, the Company is seeing increased competition. For example, the Company has seen some migration of customers "cutting the cord" to move to wireless or other service as their sole method of telecommunications. Since 2011, the Company has lost 35 access lines. A loss of customers equates to a loss of revenue without a corresponding reduction in expenses or corresponding increase in rates. This trend of access line loss is exacerbated by the Federal Communications Commission's requirement that the Company increase its rates to remain eligible for full federal USF support. Since 2012, the Company has increased its local exchange service rates in order to be in compliance with the national urban rate floor prescribed by the Federal Communications Commission. However, those increases have been insufficient to fully replace the revenues that have been lost due to the reduction in access lines. In addition, those rate increases have tended to stimulate a surge in disconnection of service by customers.

As an example of why state Program support is needed, the Company's receipt of revenue from the traditional Washington intrastate universal service access rate element and related pooling fund were terminated effective July 1, 2014. Since then, the loss of revenues derived from the traditional universal service access rate element has been off-set by revenues received by the Company as a result of its participation in the Program. Using 2012 as a base line, the Company is facing a loss of traditional universal service fund revenues of approximately \$2,029 per year if its participation in the Program is not renewed.

As another example, some of the financial uncertainty that the Company faces stems from the USF/ICC Transformation Order issued by the Federal Communications Commission.¹ The

¹ *In the Matter of Connect America Fund, A National Broadband Plan for Our Future, Establishing Just and Reasonable Rates for Local Exchange Carriers, High-Cost Universal Service Support, Developing an Unified Intercarrier Compensation Regime, Federal-State Joint Board on Universal Service, Lifeline and Link-Up, Universal Service Reform - Mobility Fund*, WC Docket No. 10-90, GN Docket No. 09-51, WC Docket No. 07-135, WC Docket No. 05-337, CC Docket No. 01-92, CC Docket No. 96-45, WC Docket No. 03-109, WT Docket No. 10-

USF/ICC Transformation Order has built in an automatic decline in the Company's intrastate and interstate access revenues. The intercarrier compensation portion of the Transformation Order introduces a concept of a base line year for calculating terminating access and reciprocal compensation revenues and provides support from the Connect America Fund ("CAF") based on the base line year. However, the base line year revenues (from which the level of CAF support is derived) are reduced iteratively by five percent each year. "The CAF support reduction began in July 2012. Projecting through the year ending June 30, 2019, including reductions that became effective July 1, 2018, the Company has seen a reduction in support from the base line revenue of approximately \$1,208.

On top of all this, during the six-year period ended December 31, 2017, the Company has seen its total federal high cost support undergo a significant reduction, declining from \$24,870 in 2011 to \$11,181 in 2017.

These factors, among others, have led to the strained financial condition of the Company as reflected in the financial reports that are part of the Petition.

The combination of factors noted above creates a situation in which, without support from the state universal communications services program, the Company may be faced with a choice of increasing rates further or reducing service in order to be able to match expenses to revenues. Neither choice presents a viable path for providing continued high quality service to customers. The dilemma presented by these choices reflects the risk of rate instability or service interruption or cessation to which the Company is subject.

208, Report and Order and Further Notice of Proposed Rulemaking, FCC 11-161 (rel. Nov. 18, 2011)(*USF/ICC Transformation Order*).

Independent Accountant's Review Report

Board of Directors
Hat Island Telephone Company
Langley, Washington

We have reviewed the accompanying financial statements of Hat Island Telephone Company (an S Corporation) (the "Company"), which comprise the balance sheets as of December 31, 2017 and 2016, and the related statements of operations, stockholder's equity and cash flows for the years then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of Company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review engagements in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the American Institute of Certified Public Accountants. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

Accountant's Conclusion

Based on our reviews, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

HAT ISLAND TELEPHONE COMPANY

NOTES TO FINANCIAL STATEMENTS

December 31, 2017 and 2016

NOTE 1 - NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Telephone Industry

Hat Island Telephone Company (the "Company") is a local exchange telecommunications company providing local exchange, other telecommunications services including digital subscriber lines and internet access services to customers in Hat Island, Washington.

The Company is a small rate-of-return carrier. The recent Federal Communications Commission ("FCC") Report and Order and Further Notice of Proposed Rulemaking, ("FCC 11-161") and Report and Order, Order and Order on Reconsideration, and Further Notice of Proposed Rulemaking ("FCC 16-33"), have reformed the universal service and intercarrier compensation systems. These reforms have modified the manner in which the Company recovers its telecommunications revenue requirements.

Accounting Records

Accounting records are maintained in accordance with the Uniform System of Accounts ("USOA") prescribed by the FCC and, to the extent permitted by the USOA, accounting principles generally accepted in the United States of America. The accounting methods observed by the Company for book and recording purposes are subject to the concurrence of the Washington Utilities and Transportation Commission ("WUTC").

Cash and Cash Equivalents

The Company considers funds held in checking accounts, demand deposits, and money market funds to be cash equivalents.

Accounting for Long-lived Assets

The Company periodically reviews long-lived assets such as property, plant and equipment for potential impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized by the amount by which the carrying amount of the asset exceeds the fair value of the asset. At December 31, 2017 and 2016, management has determined that there were no material impairment charges to be recorded as of those dates.

Regulated Telecommunications Plant, Maintenance and Depreciation

Regulated telecommunications plant is stated at original cost. The cost of additions to plant includes contracted work, direct labor, materials and overhead. When units of property are retired, the original cost plus removal costs, less salvage, is charged to accumulated depreciation with no gain or loss recognized. The costs of normal maintenance and repairs are charged to operating expense. Depreciation is computed using the straight-line method for financial reporting and accelerated methods for income tax purposes.

NOTE 1 - NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Revenue Recognition, Major Customers and Services

Services provided by the Company include primarily local network, network access services, long distance access services, digital subscriber lines and broadband access services. In the normal course of the Company's business, certain network access service revenues are subject to out-of-period adjustments. Such adjustments are normal occurrences and are recorded by the Company during the year in which they become determinable.

Network access service revenues, which represent a major portion of the Company's operating revenues, are derived from the provision of exchange access services to interexchange carriers or to an end user of telecommunication services.

Revenues for certain interstate access services are currently received through tariffed access charges filed by the National Exchange Carrier Association ("NECA") with the FCC on behalf of the NECA member companies. These access charges are currently billed by the Company to interstate interexchange carriers and pooled with like-revenues from all NECA member companies. The pooled access charge revenues received by the Company are currently based upon the actual cost of providing interstate access services, plus a return on the investment dedicated to providing these services. Pooled access charge revenues are estimated at December 31 each year and are subject to adjustment. Such adjustments are normal occurrences and are recorded by the Company during the year in which they occur.

The FCC 11-161 modified and replaced the existing universal system and intercarrier compensation systems with universal service reform and intercarrier compensation reform. A Connect America Fund ("CAF") has been established to replace all existing high-cost support mechanisms and set broadband service requirements. Alongside the broadband service rules, reforms to establish a framework to limit reimbursements for excessive capital and operating expenses were implemented as of July 1, 2012 and phase outs of certain support payments occurred. Intercarrier compensation reform adopts a uniform bill-and-keep framework as the ultimate end state for all telecommunications traffic exchanged with the Company. Intercarrier compensation rates are capped and the disparity between intrastate and interstate terminating end office rates are being brought to parity in two steps as outlined in FCC 11-161. The state's public utilities commissions will be overseeing the modifications to rates in intrastate tariffs. Limits on carriers' total eligible recovery will reflect existing downward trends on intercarrier compensation revenues with declining switching costs and minutes of use.

In September 2016, the FCC implemented a budget control mechanism for rate-of-return telecommunication carriers designed to ensure that federal support disbursements remain within the specified budget of \$2 billion. This budget control mechanism further reduces HCL and Connect American Fund Broadband Loop Support. Included in the budget control mechanism were an operating expense limitation calculation and a capital expenditure allowance calculation, none of which impacted the Company.

NOTE 1 - NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Revenue Recognition, Major Customers and Services (Continued)

As part of FCC 16-33 Universal Service Reform ("USF") order, rate-of-return telecommunication carriers have been given an option of remaining on a legacy support mechanism that includes broadband data only service funding or electing a model based support funding mechanism with an emphasis on broadband obligation deployment to begin implementation February 1, 2017. The Company will remain on the legacy support option.

The established rate of return of 11.25% used for interstate pooled settlements and other interstate revenue requirements are to be transitioned over six years to 9.75% by July 2021 by a rate of return reduction of .25% each July per FCC order. As of July 2017 and 2016, the rate of return was reduced to 10.75% and 11%, respectively.

The Company continues to review the reforms and modifications to the support that the Company receives, and understands that those reforms and modifications could have an adverse effect on the Company's revenues and cash flow. Revenue impacts are subject to change based upon future data collections and further clarification from the FCC.

Revenues for intrastate access services are received through tariffed access charges filed by the Company at the WUTC. Once filed, the tariffed access charges become effective if specifically approved by the WUTC or allowed to become effective by operation of law. The intrastate switched access charges are billed by the Company to intrastate interexchange carriers. Intrastate special access charges are also billed to intrastate interexchange carriers that order such services and, in some cases, to retail customers that order special access services.

The WUTC implemented a state universal communications service program ("State USF Program") and also replaced the cumulative reduction in support the Company received from the federal CAF. The State USF Program began January 2015 and subsequent annual disbursements comprised of the Traditional USF and the disbursement of the cumulative

CAF deficit support are scheduled to occur in January of the following State USF Program years, assuming the Company continues to be eligible under the program. The State USF Program year runs from July 1 to June 30. The Company received \$3,089 from the State USF Program for the period July 1, 2017 to June 30, 2018, and recorded deferred revenue of \$1,545 for the unearned portion. In 2016, the Company received \$2,934 from the State USF Program, for the period July 1, 2016 to June 30, 2017, and recorded deferred revenue of \$1,467 for the unearned portion. The State USF Program is scheduled to last for five program years.

For some of the services that the Company provides to its customers, the Company relies upon services and facilities supplied to it by other companies. Any material disruption of the services or facilities supplied to the Company by other companies could potentially have an adverse effect upon the Company's operating results.

December 31, 2017 and 2016

NOTE 1 - NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Federal Income Taxes

The Company is a subchapter S corporation. Taxable earnings and losses of the Company are included in the tax return of the Company, amounts from which are then included in the tax return of the Company's stockholder and taxed at the applicable tax rate of the stockholder.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates and assumptions used in preparing the accompanying financial statements.

Subsequent Events

The management of the Company evaluated for subsequent events and transactions for potential recognition and disclosure through March 9, 2018, the date of completion of the accountant's review procedures. All identified material events or transactions have been recorded or disclosed.

NOTE 2 - CONCENTRATION OF CREDIT RISK

The Company maintains cash balances at two financial institutions in western Washington insured by the Federal Deposit Insurance Corporation up to \$250,000. The Company periodically maintains cash balances in excess of the federally insured limits. At December 31, 2017, the Company's cash balance did not exceed the insured amount.

In addition, at December 31, 2017, the Company has a total deposit of \$2,608 in money market funds with a broker-dealer. The funds are insured by the Securities Investor Protection Corporation up to \$500,000 for brokerage accounts with a limit of \$250,000 for claims of uninvested cash balances and additional brokerage insurance through the broker-dealer's underwriters as stated in the broker-dealer account agreement.

The Company's accounts receivable are subject to potential credit risk as they are unsecured.

NOTE 3 - TELECOMMUNICATIONS ACCOUNTS RECEIVABLE

The telecommunications accounts receivable balances at December 31 consist of:

	<u>2017</u>	<u>2016</u>
Due from customers and agents	\$ 323	\$ 114
Due from exchange carriers and exchange carrier associations	<u>564</u>	<u>1,239</u>
	<u>\$ 887</u>	<u>\$ 1,353</u>

The Company extends credit to its business and residential customers based upon a written credit policy. Service interruption is the primary vehicle for controlling losses. Telecommunications accounts receivable are recorded when subscriber bills, carrier access bills and exchange carrier associations settlement statements are rendered. Certain exchange carrier associations' settlements are subject to out-of-period adjustments and are recorded during the year in which they become determinable. Telecommunications accounts receivable are written off when they are determined to be uncollectible. The Company believes no allowance for doubtful accounts is necessary at December 31, 2017 or 2016. As of December 31, 2017, there are no telecommunications accounts receivable that were outstanding ninety days or more after the date of the invoice on which they were first billed.

NOTE 4 - PROPERTY, PLANT AND EQUIPMENT AND DEPRECIATION

Regulated Telecommunication Plant

As required by the USOA, telecommunications plant is stated at its original cost, when first devoted to public service.

Major classes of the telecommunications plant assets in service as of December 31, 2017 and 2016 are:

	<u>2017</u>	<u>2016</u>
General support facilities	\$ 190,487	\$ 190,487

(Continued)

Provisions have been made for depreciation of the major classes of the telecommunications plant at straight-line rates as follows:

General support facilities	
Buildings	2.61%
Tools and other work equipment	16.00%
Central office equipment	7.20%
Cable and wire facilities	3.10%

Depreciation Expense

The provisions for depreciation on telecommunications plant in service were \$13,196 and \$13,195 for years ending December 31, 2017 and 2016, respectively.

NOTE 5 - DUE FROM AFFILIATED COMPANY

Amounts due from affiliated company include amounts receivable from Whidbey Telephone Company ("Whidbey"). The amounts receivable from Whidbey are payments or advances made by the Company less the result of work performed by Whidbey's work crews on behalf of the Company. The amounts are unsecured, non-interest-bearing and are to be repaid by Whidbey in the ordinary course of business. At December 31, 2017 and 2016, the Company had made payments to Whidbey in excess of the amounts billed by Whidbey.
