State Of WASH.  
UTIL. AND TRANSP.  
COMMISSION

Subject: Waste Management–South Sound and Waste Management of Seattle, divisions of Waste Management of Washington, Inc. (G-237); Tariff # 23

Enclosed are revised pages 2, 3, 5, 17, 22, 25, 25A and 27 to the above-referenced tariff. The purpose of these tariff revisions is to reflect the change in the commodity charges for residential and multi-family customers receiving recycling collection services. These tariff revisions reflect a decrease of the current commodity charge from \$0.78 to \$0.27 per month for residential customers in King County. Multi-family commodity charges are decreasing proportionately to the decreases to residential customers. Thus, this filing seeks approval to implement a decrease in customers' solid waste collection rates.

The decrease in the commodity charge is due to the overall change in commodity values and tonnages since our last commodity charge adjustment on January 1, 2019. The proposed effective date of the revised recycling commodity charges is January 1, 2020.

As a reminder of context, this filing is being submitted at the end of the two-year Revenue Sharing Plan with King County for 2018 - 2019. It is the second annual adjustment to the commodity credits/(charges) that has been made during the two-year plan period, and as required by WAC 480-70-351 reflects the change to the commodity charges due to actual prices and quantities over the past 12 months. In addition, and in accordance with RCW 81.77.185 and the approved Plan, the Company has reflected in this filing the incentive earned and the amount over or under spent on program activities over the past two years.

Furthermore, in accordance with RCW 81.77.185, the recycling commodity credit is also being adjusted to accommodate the new Revenue Sharing Plan with King County for 2020 - 2021, under which the Company is authorized to retain up to 50.0% of recycling commodity revenues to be spent on program activities. The signed 2020 - 2021 Revenue Sharing Plan with King County which will include a budget for anticipated revenues and expenditures and narrative explanations of how the recycling revenue retained will be used to increase recycling will be submitted shortly. In addition, the County will be separately filing their Plan certification, as well as an analysis of the Company's performance supporting the incentives earned under the 2018-2019 Plan.

Enclosed for your review are our accounting work papers. Customers will be notified of the change in their commodity credit adjustment on their next regularly scheduled billing after the approval of the Commission. In addition, the counties have been notified of these proposed tariff changes.

If you have any questions or need additional information, please contact me at (425) 814-7840.

Very truly yours,

A handwritten signature in blue ink, appearing to read 'Mike Weinstein', with a long horizontal flourish extending to the right.
