RE: Approval of Additional Work Request for Central Transfer Station (CTS) Access Improvement

Dear Mr. Ranta,

Pursuant to Article 22.5 Contractor Compensation for Additional Work of the Solid Waste Recycling, Transfer, Transportation and Out-of-County Disposal Contract (Contract), CRC on November 19, 2019 submitted a request to the county to adjust the tipping fee to compensate CRC for engineering and design costs associated with future CTS access improvements. I have reviewed the staff briefing prepared by Solid Waste Operations staff regarding the additional work.

Solid Waste Operations staff has recommended that the CRC request for additional work be approved by the County. I am therefore approving a \$.09 per ton adjustment to the 2020 tip fee based on the contractual formula described in Article 22.5. Per the terms and conditions of Article 22.5 Contractor Compensation for Additional Work, the tip fee calculation is to be spread out over the remaining years of the term of the contract and recalculated on an annual basis based on actual tonnage, revenue generated and remaining principle.

Per your notification letter, the adjustment for additional work will become effective January 1, 2020. If you have any questions, please feel free to contact Travis Dutton at (564) 397-8103.

Sincerely,

*Shawn Hennessee*  
Shawn Hennessee
