Item 10 – Application of Rates – General

Rates named in this tariff cover the collection, transportation, and disposal of solid waste. When specifically referred to, rates also cover the collection and transportation of recyclable materials and/or yard waste.

Title 81.77 of the Revised Code of Washington (RCW) and Chapter 480-70 of the Washington Administrative Code (WAC) govern operations of solid waste collection companies and the tariffs companies must file with the Washington Utilities and Transportation Commission (WUTC).

Unless exceptions are shown, all materials must be placed on the same level as the streets or alleys.

ADE Dumpsters may charge additional amounts for disposal fees only when specifically stated in the tariff and separately shown on customer bills.

Item 15 – Holiday Pickup – Regularly Scheduled Service

When a pickup is missed due to ADE Dumpsters’ observance of a holiday, ADE Dumpsters will provide service, at no additional cost to the customer, on an alternate day.

A list of the holidays ADE Dumpsters observes is shown in Item 60.

For application of rates in this tariff, ADE Dumpsters defines alternate day to mean the following:

Pick-up days are Monday through Friday including all holidays except Thanksgiving day, Christmas day, and New Year’s day. If the pick-up day falls on or after any of those three holidays, the alternate day will be one day late that week, for the balance of the week through Saturday.

Container means a detachable receptacle (normally designed to hold at least a cubic yard of solid waste) from which materials are collected by mechanically lifting the receptacle and emptying the contents into ADE Dumpsters' vehicle.

Dump trailer means a detachable receptacle used to provide solid waste collection service by the receptacle being placed on ADE Dumpsters' vehicle by mechanical means and transported to a disposal site.

Unit means a receptacle made of durable, corrosion-resistant, nonabsorbent material that is watertight, and has a close-fitting cover and two handles. A unit holds more than twenty gallons, but not more than thirty-two gallons or four cubic feet. A unit may not weigh more than 65 pounds when filled. Where agreed on between ADE Dumpsters and the customer, and where allowable under local ordinance, a box, carton, cardboard barrel or other suitable container may be substituted for a solid waste can, for a single pick-up that includes removal of the container, if it meets the size and weight limits established in ADE Dumpsters' tariff.

Yard waste bin or container means a bin or container specifically designed or designated for the collection of yard waste. Each company's tariff will refer to a specific type of yard waste bin or container to be used by customers in a service area. The type, size, weight, etc., of this type of bin or container will often be set by local government plans or ordinances.
