**SUPPLEMENTAL SCHEDULE 138
VOLUNTARY RENEWABLE NATURAL GAS SERVICE – PURCHASE RIDER (Continued)**

COST RECOVERY: In addition to the revenue the Company receives through participating Customers, (N)
it will recover the initial information technology start-up costs that are currently estimated to be \$1.5 |
million in its next general rate case. Participating Customer revenue will only be used to fund the |
ongoing costs of Renewable Natural Gas purchases, administration, marketing and overheads. |
Because it is a self-funded, pass-through service, the Company intends to recognize the revenues and |
ongoing expenditures of the service in deferred balance sheet accounts with no resulting impact on the |
income statement. PSE must make expenditures in order to establish this Gas Service for all natural |
gas Customers, which means that these start-up costs will be incurred prior to the generation of |
revenues from Customers electing to participate in this optional service. |

ADJUSTMENTS: Rates in this schedule are subject to adjustment by such other schedules in this tariff |
as may apply. |

GENERAL RULES AND REGULATIONS: Gas Service under this schedule is subject to the General |
Rules and Regulations contained in this tariff as they may be modified from time to time and other |
schedules of such tariff that may from time to time apply as they may be modified from time to time. |
