Subject: partial return to service after COVID

Dear Sirs

Air Travel appears to have partially resumed and is holding at just over 50% of 2019 levels.

To meet this demand and be ready for further increases in travel, we would like to resume service on seven of our Airporter Shuttle trips.

Partial service is only possible at this time because there aren't yet enough customers nor drivers that are willing to work.

We continue to look forward to when both problems are resolved and we can return to our 10+ trips each day between the Canadian border and Seatac Airport.

Sincerely

Richard Johnson  
President
