Mike,

The One Call Center does not have the schedules for the utilities locators. You will need to work with the individual utilities and their locate departments to find out when they might be responding. I have included a copy of ticket 21238106 which shows the locate contact phone numbers for each of the utilities.

Hi Jason,

This email is a follow up to our phone conversation. In looking at these two tickets neither CenturyLink or Comcast have notification coverage areas at the address on the tickets. I will have our centers Database Department contact CenturyLink and Comcast about providing updated notification coverage area maps. In the meantime, I have added district code QLNWA16 for CenturyLink and district code CC7760 for Comcast to ticket 21238106 and retransmitted that ticket. You should be receiving the ticket shortly.

Thank you,

Greg Snyder

It looks like we may have an issue with the polygons associated with both of these locate requests. Infrasource is stating that there are Lumen utilities in the area that need to be located. Can we get this fixed for them? Thanks

Neither CenturyLink or Comcast are listed on the ticket. So this would have to do with the polygons that 811 has for CenturyLink and Comcast. I would see if they can add them to a ticket.

Hey Adam, I sent this this morning but I Cc'd the wrong person >_< Sorry!

Morning,

We still don't have comm locates at this site and it's the 3rd time we've gone out and waited. While I understand that the first locate request never notified you, but I refreshed the ticket and made sure communications were on the ticket to be notified (made the polygon WAY bigger), and was cleared as of 5/29 but still have no marks down. This job is due today, so if someone could please get back to me so I can give the customer and project manager an explanation on what's going and time estimate on when we can go back out. If there is someone else I need to get ahold of please let me know. Attached is the locate ticket to indicate what we need marked out.
Thank you.
