

**Case 21-045**  
**M&L vs. Avista**

Date of violation: 10/6/21

Location: E day MT Spokane rd and Anna ct

Dig permit Ticket #21440305

Project Owner: NOANet

Scope of Work: Install conduit for fiber optic service

Narrative:

M&L construction was contracted to perform the HDD installation of a fiber optic service west of Hwy 2 on E day mt spokane. While potholing with a \$350 per hour vacuum truck, Scot received a call from his onsite foreman Jordan Berger that they could not find the Whitworth water main. I instructed Jordan to call Whitworth since they are a valued customer. Whitworth responded and also said....

**There is a 4" high consequence gas main that is not located in the area.**

M&L Construction Inc. then had to shut down and contact ELM who responded late to locate Avista's gas main.

Had we not gone above and beyond on the water line, M&L Construction would surely have center punched the 4" gas main not knowing that Avista had again failed to locate **which could have resulted in an explosion.**
