of Sheet No. 150

**PUGET SOUND ENERGY
Electric Tariff G**

SCHEDULE 150

NET METERING SERVICES FOR CUSTOMER-GENERATOR SYSTEMS

(Rider to standard rate schedules 7 through 49)

OVERVIEW: Schedule 150 applies to Net Metering available to electric Customers that generate some or all of their electricity with a fuel cell, a facility that produces electricity and used and useful thermal energy from a common fuel source, or a facility that generates electrical energy using water, solar, wind, or biogas as fuel, in accord with RCW 80.60. Schedule 152 of this tariff and WAC 480-108, having to do with the requirements of Interconnection of a Generating Facility apply to all Net Metering Systems including, but not limited to, those accomplished through the application process described in Schedule 150.

AVAILABILITY:

1. Service under this schedule is limited to Customer-Generators who are, as Customers of the Company, eligible to take service under one of the Schedules for Electric Service numbered 7 through 49 of this tariff and is subject to the provisions of Schedule 152 in this tariff.
2. This schedule applies to Customer-Generators that operate a Net Metering System and Interconnect, per one of the processes described in this schedule.
3. A Customer-Generator's Net Metering System must be Interconnected to the Company's distribution system and is intended to offset part or all of the Customer-Generator's electricity requirements.
4. New service under this schedule shall be limited in accordance with Chapter 80.60 RCW and will be available to Customers that have applied for interconnection of a new or modified Net Metering System until December 31, 2025, or when a replacement Net Metering schedule is in place for new Net Metered Customers, whichever is later. New service under this schedule will also remain available to new Customers that establish electric service at the existing premises of an existing Net Metering System that was interconnected per the terms of this schedule and application prior to December 31, 2025. The Company may restrict or prohibit new or expanded Net Metered Generating Facilities on any feeder, circuit, or network if engineering, safety, or reliability studies establish a need for such restriction or prohibition. (C)
5. Any Customer-Generator with an existing arrangement for Meter Aggregation entered into prior to July 28, 2019, may maintain the terms of an aggregation arrangement that is other than a Designated Meter aggregated with one additional Aggregated Meter located on the same parcel or a Contiguous Parcel where the Designated Meter is located. (D)
