On May 13, 1994, Washington Waste Hauling & Recycling d/b/a Waste Management - Northwest, G-237, filed with the Washington Utilities and Transportation Commission revisions to its current tariff to become effective July 1, 1994.

The filed revisions consisted of: new Tariff No. 14.

The Commission suspended filing TG-940642 on June 22, 1994 to allow for hearing or hearings to ensure the rights and interests of the public would not be injuriously affected.

At the open public meeting of June 22, 1994, staff testified that without temporary rate relief in effect during the suspension, it appeared the carrier would be operating in a loss position. This would impair the carrier's ability to meet their responsibilities as a common carrier. Staff recommended that temporary rates, subject to refund and/or credit, be allowed.

Pursuant to review of the filing, testimony and staff recommendations, the Commission finds that temporary rates, subject to refund and/or credit should be allowed. The temporary rates will remain in effect pending issuance of further Commission orders which may include provision for refund and/or credit.

O R D E R

IT IS ORDERED That the carrier is authorized to implement and collect, on a temporary basis, the rates contained in filing TG-940642. Said rates to become effective July 1, 1994.

Docket No. TG-940642  
First Supplemental Order  
Granting Temporary Rates  
Subject to Refund and/or Credit

Page No. 2

IT IS ORDERED That in the event the permanent rates determined by the Commission as fair, just and reasonable are less than the temporary rates authorized, the carrier may be directed to refund or credit any overcollection. The carrier shall keep accurate and sufficient records to allow such refunds and/or credits, if such are ordered by the Commission.

DATED at Olympia, Washington, and effective this 22<sup>nd</sup> day of June, 1994.
