On December 19, 1995, Qwest Communications Corporation filed with the Commission under its Advice Letter dated December 18, 1995 revisions to its currently effective Tariff WN U-1, cancelling WN U-1, designating as a replacement, Tariff WN U-2.

The tariff sheets bear an inserted effective date of January 25, 1996. This date recognizes statutory notice as required. The company requests, however, that statutory notice be waived and that the revisions become effective January 1, 1996.

The purpose of the filing is to reflect the company's new name and to introduce new services. Qwest requests that the filing be permitted by waiver of statutory notice for competitive reasons.

Since the tariff revisions filed herein are fair, just and reasonable, and waiver of statutory notice is not inconsistent with the public interest, it is deemed appropriate that the company be granted the waiver it is requesting with an effective date of January 1, 1996.

FINDINGS

After careful examination of the tariff revisions filed herein by Qwest Communications Corporation, December 19, 1995, and giving consideration to all relevant matters and for good cause shown, the Commission finds that the tariff revisions should become effective January 1, 1996.

O R D E R

THE COMMISSION THEREFORE ORDERS That the requested waiver of statutory notice in connection with the tariff revisions filed herein by Qwest Communications Corporation, December 19, 1995, is hereby granted, and said tariff revisions shall become effective January 1, 1996.

DATED at Olympia, Washington, and effective this 27th day of December, 1995.

4. Prepaid Calling Card Service

The service enables business and residential customers to place prepaid long distance telephone calls. Customers access the Company's network using a 1-800 access code arrangement. A voice prompt will instruct the caller to dial the called telephone number and authorization code displayed on the card. Upon validation of the information, the call will be completed.

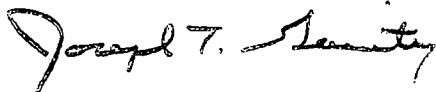

Service is available in all locations throughout Washington, subject to the availability of facilities. Customers may access this service seven (7) days per week, twenty four (24) hours per day. Customers may subscribe to the service by purchasing a prepaid card from the Company or an authorized representative. Charges for use of the Company's facilities will be deducted from the Customer's prepaid account balance as the card is used. Prepaid calling cards will be valid until the Customer's prepaid balance is completely depleted or until the expiration date displayed on the card, whichever occurs first. Callers receive a verbal notification stating the account balance each time the card is used.

Service is offered on a first come, first serve basis and may be subject to technical limitations. Service is provided to the holder of the card. All calls are charged against a prepaid calling card which has a sufficient balance to cover the amount of the call in process. Under some arrangements, callers may utilize a commercial credit card to increase a prepaid balance or renew the prepaid card. Failure of the Card Holder to maintain a positive balance or to input the authorization code of another valid prepaid calling card may result in the disconnection of a call in process; an announcement will advise the caller prior to the disconnection of the call.

Rates and charges vary depending upon the arrangement selected by the Customer. Call duration will be measured in whole minute increments, unless otherwise specified. Credit for interruptions are limited to one minute; no other refunds, credit, or other remittances shall be permitted. 5. Conference Calling Service

Conference Calling Service enables customers to conduct telephone conferences with multiple parties in multiple locations. All calls are timed and billed in one minute increments. A variety of options are available. All rates and charges are the responsibility of the entity which scheduled the conference.

Meet Me Service - This arrangement permits all conference participants to dial into the Carrier's bridge location at a designated time. A conference operator will connect each caller with the other conferees. Each caller is responsible for his/her long distance or local charges for access to the conference center. Service is provided at a rate of \$.23 per minute.

Toll-Free Meet Me Service - This conferencing arrangement allows all conference participants dial a toll-free 1-800 into the Carrier's bridge location. The conference operator will then connect the caller with the other conferees. Service is provided at a rate of \$.45 per minute.

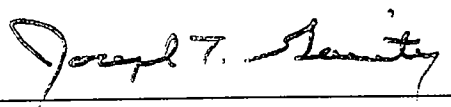

Prescheduled Service - Under this arrangement, the Customer provides the name and telephone number for all conference participants and designates a time for the conference to take place. At the designated time, a conference operator will call each conferees and establish the conference. The Customer which scheduled the call is responsible for all conference fees. Service is provided at a rate of \$.45 per minute.

Automated Conference Service - Automated conference service eliminates the need for a "live" operator to administer a conference call. Under this arrangement, each conferees dials into the conference center and is connected with other conferees through a series of prompts. After the conferee inputs the information requested and, in some instances, a pass code, he/she is interconnected with the other conference participants. Service is provided at a rate of \$.40 per minute.
