**RE: Docket No. UE-030423, Preproposal Statement of Inquiry (CR-101) to  
Consider Revisions to Chapter 480-107 WAC**

Dear Ms. Washburn:

TransCanada is a leading energy company with pipeline and generation assets in Canada and the United States. TransCanada is collaborating with BP to develop a 720-MW generation facility at BP's Cherry Point Refinery in Washington state, which will provide low cost power to Washington consumers. The Cherry Point cogeneration facility will be a Qualifying Facility under the Public Utilities Holding Company Act. TransCanada, therefore, has an interest in the above noted docket and would kindly request to be included on the Commission's mailing list. TransCanada's contact information is as follows:
