Judge Pearson-

The Newaukum Water System, Board of Directors, has reviewed the Staff's response to our request for Summary Determination, and find many issues that are either not applicable to jurisdiction, are inaccurate or are a distortion of the intent of the law. We need to respond to these items before your final review and decision. Brett Shearer advises me that I need to work directly with you for your agreement to accept this response and the due date. We would like the due date to be 12/16/2014.

Your acceptance will be appreciated,

Maurice Kurtz
Chairman of the Board
Newaukum Water System, Inc.
