**Re: Docket UE-160808 — Puget Sound Energy Response to Public Comments and Proposed Changes to the Request for Proposals for Technology and Implementation Services in Support of Puget Sound Energy (PSE) Direct Load Control (DLC) Program**

Dear Mr. King:

Enclosed for filing by Puget Sound Energy (“PSE”) is an updated version of PSE’s draft Request for Proposals for Technology and Implementation Services in Support of PSE’s Direct Load Control (DLC) Program (the “Direct Load Control RFP”). The enclosed draft incorporates the non-material clarifications and technical changes to the Direct Load Control RFP referenced in PSE’s letter filed in Docket UE-160808 on September 1, 2016. PSE asks the Commission to direct PSE to include these and any other pertinent changes to the Direct Load Control RFP in its final order(s). Upon receiving the Commission’s final order(s), PSE will make the Commission-ordered changes and issue the Direct Load Control RFP.

Questions regarding the draft Direct Load Control Program RFP should be addressed to Elaine Markham, PSE Energy Efficiency Program Development, at 425-424-6866.

Sincerely,

Ken Johnson  
Director, State Regulatory Affairs
