Date: 17 February 2020

Scott Hernandez, Regional Field Administrator

TO WHOM IT MAY CONCERN:

RE: Request for change in Safety Rating based on corrective action IAW Part 385.17.

I, Clussie Bagby, and my employees at Blessed Limousine Inc., are committed to do our part to ensure the safety of all who use our public streets and have been operating since 2009. As of the date of this letter, we have had no DOT-recordable crashes in the most-recent 24-month period.

When we had a CR, in October last year, I knew there might be some paperwork things that I hadn't gotten exactly right, but I was honestly surprised to realize how many areas there were where the DOT observed not only did I not get it exactly right, but the number and severity of violations were bad enough for the agency to order my buses off the road.

The Critical and Acute violations noted were:

ACUTE violation 383.37 (a)	ACUTE violation 396.9(c)(2)
CRITICAL violation 391.51(b)(2)	CRITICAL violation 395.8(a)(1)
CRITICAL violation 396.17(a)	

And the Vehicle OOS rate of 60%

So we are upgrading our safety management controls in the areas of

Driver Qualifications

Hours of Service, and

Maintenance.

At this time we are not operating motor coaches, but we are working hard to create a good, thorough system of management so that as soon as the FMCSA allows us to start up, we will be doing everything safely and in compliance with all the applicable FMCSRs.

0 Compliance Statement

I, Clussie Bagby, am the president of Blessed Limousine Inc.

For now, it's just me; I could say "The Management Team" but it would sound like I am putting on airs. I am the Operations Manager and Safety manager as well as the Chief Financial Officer.

I am going to do this right. As soon as I get my buses back on the road, I plan to get one other person to help part time in the office. For now, it's just me, saying "I am going to do this very carefully and correctly". And, when I get someone to help out, I will be sure they have the right training and we will work together to keep track of everything from driver qualification to maintenance and everything in between.

Blessed Limousine Inc is committed to do our part to ensure the safety of all those who use our public streets. We pledge to monitor and continuously upgrade our safety management controls to remain compliant with the standards set by the FMCSA.

The person responsible for compliance is myself, Clussie Bagby.

As soon as possible I plan to have one other driver help part time in the office.

I will ensure he has adequate skills at reading and writing and I will take him or send him to a 4-day seminar on DOT Compliance so he will have a fair start and we will check one another's work to be sure nothing is overlooked,

Clussie Bagby 2-17-2020

TO WHOM IT MAY CONCERN:

RE: Request for change in Safety Rating based on corrective action IAW Part 385.17.

I am Clussie Bagby; I am the owner of Blessed Limo. I have been in business for a number of years, including during the last couple years which I acquired charter buses. I have garnered a lot of experience through reading the FMCSA manual and through audits.

In the past year, I have been through 3 major audits, and have received training. I am in the learning process even as of right now. By no means does this disqualify the fact that I should already have had this information.

I am totally aware that I have been trying to run three different positions. As soon as I have a an SMP that is acceptable, I will bring on two other individuals to help and I will pass on all the training I have received. We will be signing up for added seminars and webinars to ensure we have the necessary level of understanding of the FMCSRs.

Not at all am I not accepting responsibility for not having this information previously. But now I am prepared to run this business in total compliance with the FMCSRs.

When we had a compliance review in October last year, we were, frankly, surprised to realize there was several areas where we really needed to do things very much differently.

When we got the notification we might be put out of service, we tried to understand the SMP process and submitted a set of documents we thought were sufficient, (November 29, 2019). and were surprised and disappointed to receive a refusal letter. (December 27, 2019).

We went back to the drawing board with a second attempt which was more in depth than the first and submitted what we felt was an improved SMP on January 8, 2020.

We have since been notified, by email and telephone conversation, that the second attempt was also insufficient. What we are doing now is, we are improving our SMP to account for each of the various shortcomings pointed out in your letter of 7 February 2020.

There are five critical or acute violations we have been asked to address, as follows:

- | | |
|-----------------------------------|----------------------------------|
| ACUTE violation 383.37 (a) | ACUTE violation 396.9(c)(2) |
| CRITICAL violation 391.51(b)(2) | CRITICAL violation 395.8(a)(1) |
| CRITICAL violation 396.17(a) | |
| And, Vehicle OOS rate 60% | |

In this, first part of the SMP, we will try to answer the important question “What went wrong” Regarding each of these violations.

We will address the **driver qualification** problems first:

The underlying problem here, and I will admit it, is I did not understand the FMCSRs sufficiently. I should have had more education in the FMCSRs. I always meant to get someone to help with the driver files and everything, but it’s hard to find people to do this. In addition to the fact I did not understand what was required, I under-estimated the amount of time it would take to do this right.

I am Clussie Bagby; I am the owner, safety manager, the whole management staff.

My wife helps out when she can, and her assistance is very important, but she has a full-time job with her business.

I am responsible for what went wrong; I am struggling to overhaul our safety controls and expect to be operating completely in compliance with the regulations as soon as possible.

As I look back on what has happened, I should have found some training course or studied the rules sufficiently to get it right. Unfortunately, I relied on a little advice here and there and thought I was doing enough. As your investigator pointed out, it was not enough.

I understand we fell short in the area of driver qualification – because I did not understand how to put together a driver qualification file and monitor the driver qualification process.

Regarding ACUTE violation 383.37 (a) - in the compliance review document the example listed is Gary Miller so we will discuss him first.

1 – 383.37(a) Gary Miller driving motor coach with no passenger endorsement.

On 22 September 2019, Gary Miller drove a motor coach when he did not have a valid passenger endorsement.

What went wrong?

There was not a good process in place at the time he was hired, which was in March 2019.

When I hired Gary Miller, I was not aware of the necessary steps that were supposed to be involved in the hiring process. I did the things I knew about, but one of the things I overlooked because I didn’t know enough about what was required, is I didn’t realize we had to have the passenger endorsements for the motor coach operators. At the time, I had been working closely with the airport authority, and I thought they provided enough guidance, but when we transitioned from cars to motor coaches, I never realized there was so much added safety management requirements.

I had a file with an application and an MVR showing he had a valid class B but I was not fully trained and did not understand that I needed to look for a passenger endorsement.

Document 2 – What went wrong

2 – 383.37(a) Mattie Raiford driving a CMV when there was a problem with her return-to-duty.

When I hired Mattie Raiford in May 2019 (please verify when this happened)

A lot of the comments above, about Gary Miller, will also apply to what happened with Mattie Raeford; I did not have a complete driver qualification process in place when she was hired.

The problem that surfaced was a different one; she had been fired from a previous employer about a year before. The record states she “refused” to take a drug test. The reason I decided to give her a chance is, she explained to me she never intended to refuse or break the rules; she said it was a miss-understanding. But it goes down in the record-book, so to speak, as a “refusal.” So, we gave her a chance; we think she was a good driver and deserved a second chance, and she seemed to understand the Return to Duty process. She had done everything asked of her but there was one final step missing. She had not done the final, Return to Duty drug test.

When she took the initial pre-employment drug test for me, I thought that was just as good, but now I understand that is not the same thing.

I am the owner of this small company; I am the safety manager, and I am responsible for what went wrong regarding Mattie Raiford’s RTD (or lack of a RTD test).

After careful review and study in this area I found out the difference in a back to work drug test (called a return-to-duty test) and a pre-employment drug test very simple Maddie Raeford should have not started working without a back to work drug test.

3 – 383.37(a) Clussie Bagby driving a CMV when suspended.

I’m Clussie Bagby and this was my commercial driver’s license and there was a problem, but I did not know about it until the investigator surfaced the issue during the compliance review. I know, it looks bad because I’m the boss and technically, I was driving with a suspension. There’s no excuse whatsoever for me not having knowledge of my license being suspended. By no means am I evading the fact that it should not have happened.

I received a speeding ticket in Las Vegas in 2014. They gave me a fine for more than \$1300. I made payments of about three quarters of the fine – but then I lost track of the payment schedule and did not receive any notification that there was a remaining total.

At that time, they petitioned for my license to be suspended, but I did not receive notification of the petition, and did not know that my license was in the process of being suspended. The petition started in 2014 but it only went into effect in the fall of 2019. Once it went into effect, they sent the notification to an address that I no longer lived at – I had moved from Fife, WA to Kent, WA and had legally changed my address at the post office, but failed to change the address on my license, and it was not forwarded to my new address.

As soon as I found out during the review that my license was suspended, I immediately worked to figure out how to reinstate it, paid the fine, and the license was reinstated 10 days later.

Document 2 – What went wrong

One of the things that went wrong before was, I had gotten a lot of advice and guidance from some people at the port of Seattle airport, and thought I had the right credentials – but one of the things I had missed was, several years ago when they started requiring the DOT physical to be linked to the MVR.

I miss-understood about the whole INTERstate vs INTRAsate – I thought when I stayed in Washington State that was INTRAsate. . . since then I have learned that we are in INTERstate commerce when we pick up and drop off at the airport.

In trying to do the right thing, I tried to figure out what the definition was and the difference between the two but I did not understand what it was, and came to the conclusion that since our operations were not driving very far that we were INTRAsate – I know now that this is incorrect, and that the determination for that is about the cargo (people from out-of-state) and NOT about how far we are physically driving.

CRITICAL violation 391.51(b)(2 – failing to maintain inquiries into driver’s driving history
in DQ file.

The example is my file. I actually had the MVR – dated Dec 5 2018. (attached). (101 bagby).

As you can see, this Washington State MVR indicated I was NOT suspended at the time. And, this was less than one year old at the time of the Compliance review. But, I did not have a good filing system, and I did not find it to show it to the investigator. And, as you have pointed out, I did not understand the question when I got the letter in the mail asking me to choose, either 1) Exempt INTERstate, 2) Non-Exempt INTERstate, 3) Exempt INTRAsate or 4) Non-Exempt INTRAsate.

As I now understand, I should always have an MVR on file for each CDL driver showing when they turned in the DOT physical to the DMV. And, we have to have the DOT Card on file as well.

Also listed were Mattie Raiford, Melissa Thomas and Gary Miller.

These DQ files were incomplete because I didn’t understand what needed to be done or how to do it, and if I had some of the required documents, they weren’t properly organized.

Now, as I look at my MVR from 2018, I realize I had selected INTRAsate; this was something I did not understand at the time. I do a lot of work right there at the Seattle Airport so I don’t really leave the state, but now I understand that is INTERstate commerce.

We will address the Hour of Service problems second:

Critical violation 395.8(a)(1) Failing to require drivers to prepare records of duty status
in the proper method.

I did not have proper hours of service documents. We had been keeping track of start time and end time, but I understand now this does not meet the requirements for 100-air-mile drivers.

The root cause of this violation, like all the driver qualification issues, was that I did not have an adequate understanding of what is required.

There is one reason I thought I had a good system; we did have an audit from the state of Washington and they specifically said the way we were doing RODs was OK – we had start and end time for each day. Your investigator pointed out we are required to have start, stop and total hours recorded for each day.

I had knowledge of what the hours of service regulations are, and what needed to be done; there were timecards that did not have a total time completed for those particular cards. Having incomplete hours of service documentation was not so much a lack of understanding, but a lack of internal auditing – a system I now know because of the DOT audit should be in place to be able to catch these problems, see what's going wrong, and do some training for the drivers moving forward to stop having those types of violations in the future.

By no means, am I not taking responsibility for not having complete Hours of Service documentation from the start. With the knowledge of what's required and a system for monitoring completeness, I can move forward in compliance with the regulations.

Regarding the Maintenance violations:

First, **critical violation 396.17(a) Using a CMV without a current**, valid, annual DOT inspection:

Our vehicle with license plate ending 6944 did not have a valid annual DOT inspection and was operated September 24, 2019. This is our motor coach #181. Vehicle 181 last had a DOT Annual Inspection in summer of 2018. The vehicle was being maintained regularly, and there is no excuse whatsoever that it did not have an up to date DOT inspection. This unit was actually out of service as it had gear box issues. Everything in the rear, axles, gears and rear end had to be replaced.

Vehicles sit for a long time. By no means do I want to make any excuses. All vehicles will not only be maintained but will have current DOT inspections.

ACUTE violation 396.9(c)(2) operation of a CMV when it was declared out of service.

License ending 483S – this is our motor coach 777.

This bus was placed out of service at a roadside inspection and we had it towed to our yard. We did the mechanical repairs at our location, then I had one of my drivers take it to the tire shop to have tires replaced. We had made the other repairs but didn't realize it was forbidden to drive it that last bit to get the tires done.

The root cause of both these mistakes is the same – I did not have adequate knowledge of what needed to be done, how to do it, or how important it was to NOT let the driver go even a short distance before all OOS violations were remedied.

Finally, we will address the **elevated out of service percentage:**

We have had too many out of service violations in the most-recent 24-month period.

393.62(a) No or Defective bus emergency exits	3 times
393.205(c) Wheel fasteners lose	1 time
393.51 No or defective brake warning device	1 time
393.75(a)(1) Tire-ply or belt material exposed	1 time
393.75C Tire-other tread depth less than 1/32 of inch	1 time
393.83(d) Improper exhaust-bus (diesel)	1 time
393.9(a) Inoperative Brake Lamps	1 time

The most-common violation was the emergency exits.

In the area of out of service I had no experience in any of this. This is not an excuse to say I was not wrong for not knowing it but I had no idea how to open or close the emergency exits.

By no means am I making excuses, but I am letting it be known that there was a bit of ignorance going on; it has not only been addressed but I'm much wiser now.

OVERALL STATEMENT:

In addition to the specific remarks above, regarding each of the violations; the root cause of most of the things that went wrong was that I did not have enough knowledge of the regulations.

Also, I did not have a good understanding of how much time is needed to take care of all these things and to be sure we follow the regulations and operate passenger coaches safely according to the FMCSRs.

The overall cause of all that has occurred is a lack of knowledge and understanding of what needed to be done. We did have several visits from the State of Washington DOT, and it seemed as if we had made some improvements, and before we could really see the turnaround in SMS scores and everything, the FMCSA was here. I think if I had had a few months in between audits, I could have made more improvements

Date: 17 February 2020

Scott Hernandez, Regional Field Administrator

TO WHOM IT MAY CONCERN:

RE: Request for change in Safety Rating based on corrective action IAW Part 385.17.

I, Clussie Bagby, am the owner, president, operations mgr and safety manager for Blessed Limousine Inc.

I am planning to do everything according to the FMCSRs.

At this time, we are out of service; I am putting together a very thorough system of safety management controls meant to prevent any of the problems I have had before, which have led to the situation I am in now.

When I can restart my business, initially I will have two drivers; myself and Deryl Roberts. And the first two buses I will put on the road are ready to go now, with a current annual inspection.

On October 31, 2019, a Compliance Review was completed and there were five critical or acute violations we have been asked to address, as follows:

ACUTE violation 383.37 (a)

ACUTE violation 396.9(c)(2)

CRITICAL violation 391.51(b)(2)

CRITICAL violation 395.8(a)(1)

CRITICAL violation 396.17(a)

And Vehicle OOS rate 60%

We are going to address the problems and the solutions by separating these into three areas:

I – Driver Qualifications

- ACUTE violation 383.37 (a) and

- CRITICAL violation 391.51(b)(2)

II – Hours of Service

- CRITICAL violation 395.8(a)(1)

III – Maintenance

- ACUTE violation 396.9(c)(2),

- CRITICAL violation 396.17(a), and

Out of Service %age.

1 – Driver Qualifications:

49 CFR §383.37(a) – Knowingly allowing, requiring, permitting, or authorizing an employee who does not have a current Commercial Learner’s Permit or Commercial Driver’s License with the proper class or endorsements, or who operates a commercial motor vehicle in violation of any restriction on the Commercial Learner’s Permit or Commercial Driver’s License to operate a commercial motor vehicle (Acute).

One of the things we are going to do in order to prevent this from happening in future is, we are going to start fresh with a new driver qualification packet.

Right now, we are out of service, so it’s hard to keep a group of drivers that are willing and able to jump into CMVs and take off. But I do have one, his name is Deryl Roberts

So we will have a good DQ packet for me and one for Deryl and when we hire more drivers we will do everything for them the same as we are doing for these two.

[sample driver qualification packet is attached]

[list of drivers is attached – only two drivers]

First, we will make sure we have good applications – DOT Compliance Help, Inc. has provided a good driver qualification packet – we are going to use these forms – Then, we are going to be very careful – we will check and double-check to be sure they are filled out right.

Next, we will be sure we get the MVRs from each state they lived in. And, verification of previous employment from any previous employers where they drove a DOT-regulated vehicle.

And we will review the MVRs carefully to be sure we do not overlook anything. Like if the DOT card is not filed with the state department of motor vehicles, for example. Or, if the driver does not have the proper passenger endorsement.

Second, we will think through what went wrong before, and double-check to be sure we are not making any of these mistakes in future –

- (1) good MVR with DOT physical expiration date included.
- (2) we will be very careful and study the applications and the MVRs; if a person has lived in more than one state in the most-recent 3 year period we will run MVRs in each of those states.

One of the things I am concerned about is, a driver could have his license or CDL suspended after we did the annual review and we would not know about it right away. We are planning on doing the annual review two times per year and running the MVRs each 90 days, and study them very carefully to be sure we don’t overlook something like DOT physicals or required endorsements.

Before a driver's DOT Physical expires, we will make sure they go for a new DOT physical, and when they come back with a good physical, we will make sure they go to the DMV. After they get back from the DMV we will wait 10 days and pull a new MVR to be sure it is registered. From now on, each time we put a CDL driver on, we will be sure we have the DOT Card AND an MVR that shows when the DOT Card expires.

Who will be responsible for this area of compliance?

- This is a small business, and I want to grow to the point I will have 8 or 10 CMVs on the road, or even more. Right now, I only have 2 buses I want to get back in service as soon as I am able. For the foreseeable future, I am the only member of management concerned with DQ files but I hope to have a second person helping in this area in the future. I will still be the person responsible for this and all areas of compliance.

As evidence, we are including two complete DQ files (1) Bagby, and (2) Roberts.

As evidence of implementation of new systems, we will submit a copy of our new DQ policy.

One of the reasons we had trouble before is, I didn't really know how to do all these things correctly. One of the things I am going to do differently is, I am going to a 4-day seminar on DOT regulations – this seminar should help me to understand all the things that must be done to successfully manage all seven BASIC areas.

As evidence, we are including document from the training provider showing I am enrolled in the 4-day class dated 25-28 February, 2020.

49 CFR Part 391

Driver Qualification File and Documents –

49 CFR §391.51(b)(2) – Failing to maintain inquiries into driver's driving record in driver's qualification file (Critical).

In future, we will always check the MVRs for any driver we hire, to include making sure they are fully qualified, including DOT Card, expiration date of DOT Card listed in MVR, correct endorsements, no suspended licenses, etc.

I understand sometimes if you run an annual review in, say, February you could kind of get in trouble because a driver might get suspended in June. Instead of thinking that MIGHT happen for 12 months, our new process will include performing an annual review two times per year.

But first, we are going to be sure we can start on day 01 with two drivers who are legally and physically qualified, and we will have a complete Driver Qualification file for each of them.

As a small business owner, clearly, I am responsible for everything that happens. Initially, I am going to be doing this work. As soon as I get a few more buses on the road, I will try to find someone who can drive part-time and help me in the office part time. Both myself and the new assistant will attend the 4-day seminar, in order to help him/her get started with an understanding of what is needed.

Regarding driver qualification system problems and remedies:

Initially, we are putting together complete DQ packets for myself (Clussie Bagby) and driver Deryl Roberts.

I have an outside company helping to be sure they are done right.

A big part of the reason this was never done completely right is, I was trying to do it myself and I didn't really understand the process as well as I should.

The real solution is this:

- (1) With some expert help, I am going to put together two complete DQ files and going forward these will be used as examples when we add another driver.
- (2) I will have at least one other person helping me get all the steps right in the driver qualification process
- (3) Myself AND the person who will be helping me with this will both get some training – we are scheduled to attend a 4-day seminar on DOT safety regulations later this month.

At least two times per year, we will do a three-part annual review.

2 – Driver's HOS and RODs:

49 CFR §395.8(a)(1) – Failing to require a driver to prepare a record of duty status using the appropriate method (Critical).

Moving forward, we will look at our schedule of charter services, select the drivers for each charter, and if the driver hasn't been driving continuously, have them complete a 7-day sheet.

For each day a driver is dispatched, I will check to be sure I have either a daily drivers log (when required) or the information needed under the 100-air-mile radius exemption.

Some drivers will be people who are working at other jobs, including some CMV operators. If a person drives our CMV after being elsewhere for 7 days or more, we will have them complete a 7-day sheet – OR provide copies of their RODs from the other job - so we can check to be sure they do not exceed the HOS limits. Or, we might use a weekly form we have; but the necessary information will be captured and verified.

As with each area of safety management compliance, I, Clussie Bagby, am responsible. My intention is to get a good system established so I can grow the business and continue to do it according to the regulations.

It is a bit of a challenge to find words to explain how we will have a detailed and elaborate system to check RODs for falsification at first, because there will only be one or two drivers; I know where people are all the time and when they turn in their paperwork at the end of the day there is no reason for them to falsify anything, and if they did I would know it immediately.

When we succeed at growing this business to the point I am not able to personally monitor each and every movement continuously, we will start using separate fuel accounts for each driver so we can check fuel purchase time against RODs.

Also, we are probably going to have a Charter Order Sheet at some point; when a customer is dropped off, a member of the group or the group leader will be asked to sign the bottom of the charter order. The charter order document will have the drivers start time and end time and we can check that against the drivers RODs to be sure they match.

And, I was able to learn some things during an HOS online webinar on February 13 (certificate attached)

As with each area, I am responsible to be sure this happens.

I, Clussie Bagby, owner and President of Blessed Limousine, Inc. will ensure all CMV operators comply with the HOS limitations found in part 395 of the FMCSR, and submit RODs which meet the requirements found in 395.8.

Attached is a copy of our December charter calendar, and RODs for the two drivers who are going to be operating our motor coaches when we are able to resume operations.

3 – Maintenance and maintenance record keeping:

49 CFR §396.9(c)(2) – Requiring or permitting the operation of a motor vehicle declared “out-of-service” before repairs were made (Acute).

The specific violation the DOT investigator wrote us up for was an anomaly and we just won't let anything like it happen again. We know if a motor coach is placed out of service no one is going to drive it or authorize someone to drive it. We had that motor coach towed in to our place and the repairs were made, and we were thinking the tires were sort of a separate thing, and let someone drive it to the tire shop – but now we realize we should have had the tire contractor come to our place of business to replace the tires that needed to be replaced.

In the future, if a tire is in violation, whether the driver points it out or if it shows up on a roadside inspection, we will take the motor coach to the tire contractor and have the situation corrected as soon as possible, - OR the tire contractor might come to our location – but in no case will we re-dispatch the bus before the repairs are made.

In the event the tire – or any component – is ever found to be a serious safety violation (as noted by our driver) or an Out of Service violation (as noted by a roadside inspector) we will be VERY careful to avoid any miss-understandings; OUT OF SERVICE Means OUT OF SERVICE.

We will include this in our driver training, and we will provide training to new drivers regarding this, our periodic inspections and making sure we never operate a CMV that has an expired annual inspection.

WE are starting small, with two buses on the road. Both buses start with a new annual inspection. We plan to bring each one to our mechanic each 90 days for a scheduled inspection. WE are still working on the details of what will be done at each 90-day interval, but we have a starting checklist.

I have now not only made a system to check emergency exits but I also have changed all the clips on every bus to ensure emergency exits are working properly, Some clips did need to be changed they just needed to be oiled but whatever it was it's been addressed.

Most of all I have the experience of walking thru the bus and checking every emergency exit from the windows to the ceiling.

One of the things I am doing now is, I have ordered a copy of the CVSA Out of Service guide. As soon as I get that, I am going to start studying it to be sure I understand which violations are more serious and therefore have been determined to be OOS violations.

We are looking forward to starting fresh with two motor coaches, each of which have had an annual inspection very recently, and as soon as business volume calls for it, we have a 3rd motor coach we will put into service.

One of the things I am going to do differently is, I am going to study the CVSA Out of Service guide very carefully. I understand now, there are roadside inspections and violations and then there are OOS violations that should be treated much more seriously

As evidence all OOS conditions have been addressed, we are including new annual inspections for each of these buses.

In future, we will always keep a copy of every roadside inspections with proof of all repairs.

There have been no additional roadside inspections since the compliance review.

**Annual Inspections -
49 CFR §396.17(a) – Using a commercial motor vehicle not periodically inspected (Critical).**

We are starting fresh, as soon as the FMCSA allows it, with two CMVs.

These two motor coaches have had fresh annual DOT inspections.

Our drivers will receive training on pre-trip inspections, and one of the things they will be instructed to check is, when did the bus last have an annual inspection.

If it is due within 30 days they will make a note of it on their DVIR.

We are going to have a sticker inside the windshield to remind the driver when the bus needs to come in for a 90 day inspection. If it is within one week, they will note that on the DVIR.

I, Clussie Bagby, am responsible for this area of compliance.

Attachments include the list of CMVs (only two buses right now) and the annual inspections for each bus, as well as our DRAFT maintenance policy.

Out-of-Service Rate - Vehicle Out-of-Service Rate (OOS Rate) 34% or higher

We had a few violations – especially the emergency exit thing – that were out-of-service in nature and I thought I understood how to deal with this, but in retrospect I just didn't understand how serious it is when you have an OOS violation.

First, every driver will receive some training on pre-trip inspections, and we will emphasize the importance of safety-related problems and out of service violations.

Second, we will monitor driver's DVIRs to be sure if there is something indicated on the DVIR that is the sort of thing that would make a CMV unsafe to operate, we have a very robust approach to making needed repairs before the CMV can be dispatched.

Third, I have just ordered a copy of the CVSA Out of Service guide. Any time there is a roadside inspection with an out of service violation I will make sure I have the driver show me exactly what the inspector pointed out, and I will study the violation description in the OOS guide to be sure I understand the nature of the OOS violation.

Either myself or one of my drivers will check carefully to be sure the other vehicles don't have the same violation.

I am starting with only two buses, but I am planning ahead. I plan to have numerous buses on the road and if we ever have an OOS violation there will be more buses to check to be sure we don't have more than one with the same violation.

Included as evidence is a list of equipment, (only two buses) our maintenance schedule, the new maintenance policy, and our new DVIR.

This is a small business, and I want to grow to the point I will have 8 or 10 CMVs on the road, or even more. Right now, I only have 2 buses I want to get back in service as soon as I am able.

I will still be the person responsible for every area of compliance, including maintenance. Gary Miller seems to be a valuable asset and I think he will be my main right-hand person in the maintenance area that I can count on to help make sure things are done properly, but I am still responsible.

[There was a driver named Gary Miller; this is a different person.]

OVERALL IMPROVEMENTS TO SAFETY MANAGEMENT CONTROLS:

As I read back through these documents, each time I am forced to come face to face with the root cause of each violations that led to the UNSATisfactory safety rating, it's all about my lack of knowledge and understanding of the FMCSRs. I should have found a way to understand them better.

I am going to attend some training February 25 – 28 – this will cover a broad range of safety-related topics, with a focus on DOT/FMCSA Compliance. This will help, as there were things I did not understand before. Also, I have attended 4 brief familiarization webinars on February 17 and 18, on HOS, DQ, accident countermeasures and roadside inspections.

The overall cause of all that has occurred is a lack of knowledge and understanding of what needed to be done. We did have several visits from the State of Washington DOT, and it seemed as if we had made some improvements, and before we could really see the turnaround in SMS scores and everything, the FMCSA was here. I think if I had had a few months in between audits, I could have made more improvements.

Now, while we are in a stand-down posture, I have an opportunity to change and organize all that has been given to me. I AM LOOKING forward to starting fresh with two buses and two drivers, myself as one of them, and a good, new system to manage Commercial Vehicle Safety.

I am looking forward to the seminar as I think it will help me to have a better overall understanding of what is required. I think the training will help.

CLUSSIE BAGBY (PRESIDENT)

RECORDABLE \NON-RECORDABLE**

February 18th, 2020

Training provided by DOT Compliance Help, Inc. TM
(847) 836-6063, www.dotcompliancehelp.com

TO: All drivers and employees of Blessed Limousine Inc

Date: 17 February, 2020

This policy is in effect until superseded

Effective immediately:

A. Initial Driver Qualification process:

Driver applicant will complete the application; management will study the application for completeness. In addition to the application, we will use the attached checklist to assure no one is dispatched in one of our buses that is not both legally and physically qualified.

- 1 - Completed Driver's Employment Application
Including 10 years job history – most-recent 3 years verified
- 2 - Proof of negative pre-employment drug test
custody form
advise of negative result
- 3 - Enlarged, color copy of CDL and/or operator's license (both sides)
And road test certificate
- 4 - MVR – minimum 3 yrs driving history
Include MVR from each state of residence most-recent 3 years
Verification of previous employment from previous employer.

We will pay careful attention to CDL status, including endorsements, such as passenger endorsement, and also check to be sure the DOT Card is on file with the state.

- 5 - DOT medical qualification card
NRCME verification
- 7-day sheet (may get moved to HOS files)
- 8 – annual record check
Drivers certification
MVR
Motor carrier's certification of driver's qualification

After we have the application completed, which includes permission to check the clearing house and to run a PSP report, we will run the MVR and PSP, check the clearing house, and send the driver for a pre-employment drug test and a DOT physical.

We will also do a road test; if the driver cannot handle a motor coach proficiently we will not go any further, as we have a challenging task working around the airport and sometimes transporting cruise ship passengers and Seattle area traffic, and we don't have time to train inexperienced CMV operators.

When we get the MVRs we will be sure to get an MVR for each state they have lived in. On the MVR, one of the things we will check is to be sure the driver has submitted his DOT Medical Qualification card to the state DMV and that should show on his MVR.

We know from experience, if you do an annual review once or twice per year, it is possible a driver could be suspended, and we would not know right away.

To minimize that, we are going to do the annual review two times per year.

B. Annual review process

Once per year an Annual record check – 3 parts

- a. Driver's certification of violations
- b. Another MVR each year
- c. Carriers certification of driver's qualification

C. Bi-Annual check of DQ packet

- Two times per year we will check each DQ file to be sure it is complete, to include:
- Complete application
- Current valid DOT card with NRCME verification
- Current CDL (or operator's license)
- MVR – check to be sure operator is not suspended or revoked.

D. Monitoring and Remediation

If you get a ticket or a roadside inspection, you must notify me right away

When we learn of a violation, we will check the MVR to see if there is a possibility the violation could lead to a suspension.

It is in your best interest, and that of the company, to always do your best to comply with all state and local rules, for some obvious reasons and some that might not be quite as obvious to you. This means be careful to NOT do things that could lead to moving violations.

Also, we are going to be running MVRs two times per year, and checking carefully for suspensions. Alternatively, we might sign up with one of those monitoring companies that will let us know if there is anything added to your MVR.

E. Regular updates

This is a DRAFT policy; we expect to review this annually to determine what, if any changes should be made to ensure we have an effective system to prevent a repeat of violations that have embarrassed us in the past, including not having a DOT Card on file and a driver without a passenger endorsement.

Note to drivers and everyone:

We had a little trouble with the DOT last year, because we weren't doing all of this right. We have new procedures, and sometimes you may feel as if you are being accused of doing something wrong and we are trying to prove it's not that way – I want you to understand, we just want to make sure we do not make the mistakes we have made before, and I want everyone to help – it might seem we are checking things 2 or 3 times and sometimes we are going to ask you to do something you feel as if you have done before, but please be patient.

One of the things we must be VERY careful of, is to make sure we have the right endorsements and everything, so we will be performing annual reviews two times per year.

And, each time you have to go for a DOT physical we are going to run an MVR to make sure that information is entered in the state Driver's License Agency's computer and we have proof of it here.

Any time you get a ticket, driving a CMV or your own automobile, you have to let me know about it. We want to be careful we don't have a driver who gets suspended.

For new drivers, we are going to be very careful to get proof of previous employment from previous employers – this means we need a good point of contact and we are going to keep trying until we get responses from them, or we will make three attempts and if a previous employer is not cooperating we will report them to the DOT.

We appreciate your cooperation – we are all going to work together to make sure we do everything right, to comply with the FMCSRs and more importantly, to prevent accidents and fatalities on the nation's streets and highways.

This is a DRAFT policy, so if you see a way we might do something better, bring it up. If you think there is a better way to do something, you can be part of the solution.

TO BE READ AND SIGNED BY APPLICANT

I authorize you, BLESSED LIMOUSINE INC., to make such investigations and inquiries of my personal, employment, financial or medical history and other related matters as may be necessary in arriving at an employment decision. (Generally inquiries regarding medical history will be made only if and after a conditional offer of employment has been extended.) I hereby release employers, schools, health care providers and other persons from all liability in responding to inquiries and releasing information in connection with my application.

In the event of employment, I understand that false or misleading information given in my application or interviews may result in discharge. I understand, also, that I am required to abide by all rules and regulations of the Company, as well as the FMCSRs.

I understand information I provide regarding current and/or previous employers may be used, and those employers will be contacted, for the purpose of investigating my safety performance history as required by 49 CFR 391.23 (d) and (e). I understand that I have the right to:

- Review information provided by the previous employers;
- Have errors in the information corrected by previous employers and for those previous employers to re-send the corrected information to the prospective employer; and
- Have a rebuttal statement attached to the alleged erroneous information, if the previous employer(s) and I cannot agree on the accuracy of the information.

This certifies this application was completed by me, and that all entries on it and information in it are true and complete to the best of my knowledge.

ALCOHOL & CONTROLLED SUBSTANCE CONSENT AND RELEASE – applicant MUST answer:

Have you ever refused to be tested for drugs or alcohol?	Yes	No
Have you ever tested positive for drugs or alcohol?	Yes	No
Have you ever tested positive for any pre-employment drug or alcohol test for a job which you applied for but did not obtain?	Yes	No

*If applicant answered 'Yes' to any of the above questions, attach a statement of explanation AND provide proof of the Return to Duty Process.

I understand that, as required by the Federal Motor Carrier Safety Regulations and company policy, all CDL drivers must submit to alcohol and controlled substance testing as a condition of employment. Non-CDL drivers may also be subject to testing per company policies. I also understand that any offer of employment will be contingent upon the results of an alcohol and controlled substance test.

Applicants for positions that require driving a commercial motor vehicle (CMV) requiring a CDL at any time will be required to undergo controlled substances and at our discretion, alcohol testing prior to employment and will be subject to further testing throughout their period of employment.

BLESSED LIMOUSINE INC.'s policy is that if a person has ever been in violation of the rules in part 40 (DOT) or 382 (FMCSA) they will NOT be considered eligible for any job which includes operation of a CMV (Greater than 10,000 GVWR) unless they have completed the return to duty process.

CDL drivers will be subject to random and reasonable suspicion drug testing each day they report for work.

Therefore, I agree to submit to the following alcohol and controlled substance tests in accordance and as defined by the Federal Motor Carrier Safety Regulation and this company's policies:

- Pre-Employment, to determine employment eligibility
- Random
- Reasonable Suspicion
- Post Accident
- Follow Up (see company policy)
- Return-to-duty (see company policy)

I certify that I have read, understand, and agree to abide by the condition of this consent and release form. Failure to answer these questions and sign will prevent this employer from using you as a CMV driver.

CERTIFICATION OF COMPLIANCE WITH DRIVER LICENSE REQUIREMENTS – PART 383

MOTOR CARRIER INSTRUCTIONS: The requirements in Part 383 apply to every driver who operates in intrastate, interstate, or foreign commerce and operates a vehicle weighing 26,001 pounds or more, can transport more than 15 people, or transports hazardous materials that require placarding.

The requirements in Part 391 apply to every driver who operates in interstate commerce and operates a vehicle weighing 10,001 pounds or more, can transport more than 15 people, or transports hazardous materials that require placarding.

DRIVER REQUIREMENTS: Parts 383 and 391 of the Federal Motor Carrier Safety Regulations contain some requirements that you as a driver must comply with. These requirements are in effect as of July 1, 1987. They are as follows:

1. You, as a commercial vehicle driver, may not possess more than one license.
2. If you currently have more than one license, you should keep the license from your state of residence, and return the additional licenses to the states that issued them. Destroying a license does not close the record in the state that issued it; you must notify the state. If a multiple license has been lost, stolen, or destroyed, you should close your record by notifying the state of issuance that you no longer want to be licensed by that state.
3. Sections 392.42 and 383.33 of the Federal Motor Carrier Safety Regulations require that you notify your employer the NEXT BUSINESS DAY of any revocation or suspension of your driver's license. In addition, Section 383.31 requires that any time you violate a state or local traffic law (other than parking), you must report it to your employing motor carrier and the state that issued your license within 30 days.

DRIVER CERTIFICATION: I certify that I have read and understand the above requirements.

The following license is the only one I will possess:

Driver License Number	State	Expiration Date
Driver Signature	Date

General Consent for Limited Queries

of the Federal Motor Carrier Safety Administration (FMCSA) Drug and Alcohol Clearinghouse

I, (driver name) _____, hereby provide consent to
(employer name) BLESSED LIMOUSINE INC.
to conduct a limited query of the FMCSA Commercial Driver's License Drug and Alcohol Clearinghouse
(Clearinghouse) to determine whether drug or alcohol violation information about me exists in the Clearinghouse.

This shall include consent of initial inquiry, as well as annual queries (if applicable) required by FMCSA
for the duration of my employment.

I understand that if a limited query conducted by
(employer name) BLESSED LIMOUSINE INC. indicates that drug or alcohol violation information about me exists in
the
Clearinghouse, FMCSA will not disclose that information to (employer name) BLESSED LIMOUSINE INC. without
first
obtaining additional specific consent from me.

I further understand that if I refuse to provide consent for (employer name) BLESSED LIMOUSINE INC. to conduct
a limited query of the Clearinghouse, (employer name) BLESSED LIMOUSINE INC. must prohibit me from
performing safety-sensitive functions, including driving a commercial motor vehicle, as required by FMCSA's drug and
alcohol program regulations.

ANNUAL REVIEW OF DRIVING RECORD

PART A – CERTIFICATION OF VIOLATIONS

Driver Name

MOTOR CARRIER INSTRUCTIONS: The Company is required by the DOT to perform an **annual** records check, to ensure the company is aware of any and all traffic violations committed by its drivers, including those in a private auto as well as any in a Commercial Motor Vehicle.

Please list on the following lines all violations of motor vehicle traffic laws and ordinances (other than violations for parking only) of which you have been convicted, or on account of which you have forfeited bond or collateral during the last 12 months. (Per FMCSR 391.27)

I certify that the following is a true and complete list of traffic violations required to be listed for which I have been convicted or forfeited bond or collateral during the past 12 months.

Date	Offense	Location	Type of Vehicle Operated

If no violations are listed above, I certify that I have not been convicted or forfeited bond or collateral on account of any violation (other than those I have provided under Part 383) required to be listed during the past 12 months.

Driver's license #: _____ State: _____ Exp. Date: _____

Change of Address:

If you have moved in the last 12 months, provide your new address here

Drivers Signature _____ Today's Date _____

PART B – MVR (Attach MVR to form)

PART C – CARRIER'S ANNUAL REVIEW

Carrier's annual review of driving record and certification of continued qualification as required by FMCSR 391.25(c)(2) This day I have reviewed the driving record of the above named driver in accordance with 391.25 of the FMCSRs. I considered any evidence that the driver has violated applicable provisions of the FMCSRs and the HMRs (if applicable). I considered the driver's accident record and any evidence that he/she has violated any laws governing the operation of motor vehicles, and gave great weight to violations, such as speeding, reckless driving, and operation while under the influence of alcohol or controlled substances, that indicate the driver has exhibited a disregard for the safety of the public. Having done so, I find that:

- The driver meets the minimum requirements for safe driving, or**
- The driver is disqualified to drive a CMV pursuant to 391.15., or**
- This driver is disqualified to drive a CMV pursuant to company policy**

Subject: Blessed Limousine SMP Feb 2020 first five documents

Clussie:

There are three things we are still waiting for, but I am going to start sending documents.

Right now the whole SMP is in one file on my computer; as I start sending everything, five documents at a time, I'll point out the one page that needs to be replaced.

And, almost the very last page is where we want those two documents showing the emergency exit inspections have been done –

We really don't want to miss that, as it was a big deal on the CR

First five documents;

- 01 Overall compliance statement all but signature page
 - Overall compliance statement signature page
- 02 how it went wrong all but signature
 - How it went wrong signature page
- 03 how we will fix it all but signature page

- Mike

I authorize you, BLESSED LIMOUSINE INC., to make such investigations and inquiries of my personal, employment, financial or medical history and other related matters as may be necessary in arriving at an employment decision. (Generally inquiries regarding medical history will be made only if and after a conditional offer of employment has been extended.) I hereby release employers, schools, health care providers and other persons from all liability in responding to inquiries and releasing information in connection with my application.

In the event of employment, I understand that false or misleading information given in my application or interviews may result in discharge. I understand, also, that I am required to abide by all rules and regulations of the Company, as well as the FMCSRs.

I understand information I provide regarding current and/or previous employers may be used, and those employers will be contacted, for the purpose of investigating my safety performance history as required by 49 CFR 391.23 (d) and (e). I understand that I have the right to:

- Review information provided by the previous employers;
- Have errors in the information corrected by previous employers and for those previous employers to re-send the corrected information to the prospective employer; and
- Have a rebuttal statement attached to the alleged erroneous information, if the previous employer(s) and I cannot agree on the accuracy of the information.

This certifies this application was completed by me, and that all entries on it and information in it are true and complete to the best of my knowledge.

TEL. 206-579-5911

Date: 6 January 2020

I, Clussie Bagby, am the owner of the small business known as Blessed Limousine.

I have been engaged in this business for more than 10 years.

I understand the FMCSR requires a Driver Job Application.

I have completed the application.

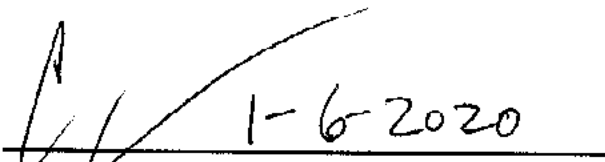

I can verify my job history; I have been here more than 10 years.

There MIGHT be some question; the business has only been recognized by the DOT for a shorter period of time than that; this is the explanation:

- I had a business involving town cars and other vehicles that were regulated by the state of Washington
- I only recently became involved in operating vehicles that were subject to the FMCSRs.

If there is any question regarding this

Verification of previous employment for driver Clussie Bagby, I can be reached at the above number.

PART C - CARRIER'S ANNUAL REVIEW

Carrier's annual review of driving record and certification of continued qualification as required by FMCSR 391.25(c)(2) This day I have reviewed the driving record of the above named driver in accordance with 391.25 of the FMCSRs. I considered any evidence that the driver has violated applicable provisions of the FMCSRs and the HMRs (if applicable). I considered the driver's accident record and any evidence that he/she has violated any laws governing the operation of motor vehicles, and gave great weight to violations, such as speeding, reckless driving, and operation while under the influence of alcohol or controlled substances, that indicate the driver has exhibited a disregard for the safety of the public. Having done so, I find that:

- The driver meets the minimum requirements for safe driving, or
- The driver is disqualified to drive a CMV pursuant to 391.15., or
- This driver is disqualified to drive a CMV pursuant to company policy

Public Burden Statement

A Federal agency may not conduct or sponsor and a person is not required to respond to, nor shall a person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of information displays a current valid OMB Control Number. The OMB Control Number for this information collection is 3126-0006. Public reporting for this collection of information is estimated to average approximately 1 minute per response, including the time for reviewing instructions, gathering the data needed, and completing and reviewing the collection of information. All responses to this collection of information are mandatory. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to Information Collection Clearance Office, Federal Motor Carrier Safety Administration, MC-99A, 1200 New Jersey Avenue, SE, Washington, D.C. 20590.

Employer Witness <i>Clusie Bagby</i>	Witness Title <i>Manager</i>

CERTIFICATION OF COMPLIANCE WITH DRIVER LICENSE REQUIREMENTS – PART 383

MOTOR CARRIER INSTRUCTIONS: The requirements in Part 383 apply to every driver who operates in intrastate, interstate, or foreign commerce and operates a vehicle weighing 26,001 pounds or more, can transport more than 15 people, or transports hazardous materials that require placarding.

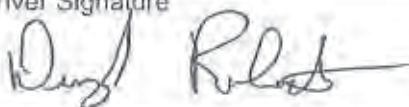

The requirements in Part 391 apply to every driver who operates in interstate commerce and operates a vehicle weighing 10,001 pounds or more, can transport more than 15 people, or transports hazardous materials that require placarding.

DRIVER REQUIREMENTS: Parts 383 and 391 of the Federal Motor Carrier Safety Regulations contain some requirements that you as a driver must comply with. These requirements are in effect as of July 1, 1987. They are as follows:

1. You, as a commercial vehicle driver, may not possess more than one license.
2. If you currently have more than one license, you should keep the license from your state of residence, and return the additional licenses to the states that issued them. Destroying a license does not close the record in the state that issued it, you must notify the state. If a multiple license has been lost, stolen, or destroyed, you should close your record by notifying the state of issuance that you no longer want to be licensed by that state.
3. Sections 392.42 and 383.33 of the Federal Motor Carrier Safety Regulations require that you notify your employer the NEXT BUSINESS DAY of any revocation or suspension of your driver's license. In addition, Section 383.31 requires that any time you violate a state or local traffic law (other than parking), you must report it to your employing motor carrier and the state that issued your license within 30 days.

DRIVER CERTIFICATION: I certify that I have read and understand the above requirements.

The following license is the only one I will possess:

Driver License Number WDL79780F43B	State WA	Expiration Date 5/19/2022
Driver Signature 	Date Feb 13, 2020	

CERTIFICATION OF ROAD TEST

Driver's Name Deryl Roberts

Social Security Number 531-82-8946

Operator's or Chauffeur's License Number RobertL357K2

State WASH

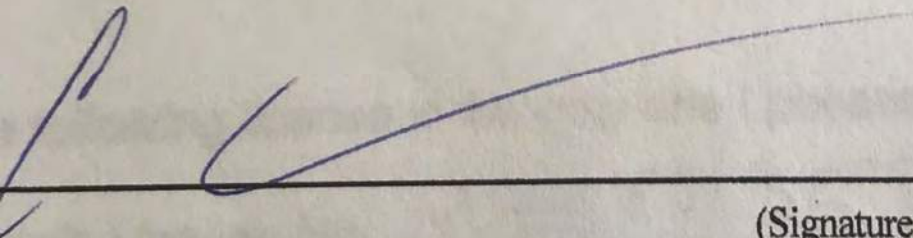

Type of Power Unit BUS - Charter

Type of Trailer(s) _____

If passenger carrier, type of bus Charter

This is to certify that the above-named driver was given a road test under my supervision on 4-6, 2019, consisting of approximately _____ miles of driving.

It is my considered opinion that this driver possesses sufficient driving skill to operate safely the type of commercial motor vehicle listed above.

ANNUAL REVIEW OF DRIVING RECORD

PART A - CERTIFICATION OF VIOLATIONS

Driver Name

Daryl Roberts

MOTOR CARRIER INSTRUCTIONS: The Company is required by the DOT to perform an **annual** records check, to ensure the company is aware of any and all traffic violations committed by its drivers, including those in a private auto as well as any in a Commercial Motor Vehicle.

Please list on the following lines all violations of motor vehicle traffic laws and ordinances (other than violations for parking only) of which you have been convicted, or on account of which you have forfeited bond or collateral during the last 12 months. (Per FMCSR 391.27)

I certify that the following is a true and complete list of traffic violations required to be listed for which I have been convicted or forfeited bond or collateral during the past 12 months.

Date	Offense	Location	Type of Vehicle Operated
<i>N/A</i>	<i>N/A</i>	<i>N/A</i>	<i>N/A</i>

If no violations are listed above, I certify that I have not been convicted or forfeited bond or collateral on account of any violation (other than those I have provided under Part 383) required to be listed during the past 12 months.

Driver's license #: *WDL 79780F4SB* State: *WA* Exp. Date: *5/19/2022*

Change of Address:

If you have moved in the last 12 months, provide your new address here

Drivers Signature *Daryl Roberts* Today's Date *2/13/2020*

PART B - MVR (Attach MVR to form)

PART C - CARRIER'S ANNUAL REVIEW

Carrier's annual review of driving record and certification of continued qualification as required by FMCSR 391.25(c)(2) This day I have reviewed the driving record of the above named driver in accordance with 391.25 of the FMCSRs. I considered any evidence that the driver has violated applicable provisions of the FMCSRs and the HMRs (if applicable). I considered the driver's accident record and any evidence that he/she has violated any laws governing the operation of motor vehicles, and gave great weight to violations, such as speeding, reckless driving, and operation while under the influence of alcohol or controlled substances, that indicate the driver has exhibited a disregard for the safety of the public. Having done so, I find that:

- The driver meets the minimum requirements for safe driving, or
- The driver is disqualified to drive a CMV pursuant to 391.15., or
- This driver is disqualified to drive a CMV pursuant to company policy

BLESSED LIMOUSINE INC- DOT #2822783
15 S GRADY WAY - RENTON, WA 98057
TEL. 206-579-5911

Date: 17 February 2020

TO: All drivers and employees of Blessed Limousine Inc.

Effective immediately:

We had a little trouble with a compliance review a few months ago, as you surely have learned.

One of the problems the investigator had was the way we were keeping track of hours of service.

In the past we had a graph grid sheet with start time and end time for each day driving a Blessed Limousine commercial motor vehicle.

What they really wanted to see was Start time, Stop time, and Total hours worked for any day in which ANY CMV operation takes place, and number of hours any day not worked.

That's a little over-simplified, but I just want us to understand, we have to be more careful in future to keep track of Hours of service and do it the right way.

We are going to do some driver training when we have a few more drivers to work with, but in the meantime, this is the policy I need for everyone to understand.

Each day you drive a CMV for us, we need to know start time, stop time and total hours that day, and we need to know how many hours you worked each day for the most-recent 7 days, and what time you got off work the day before.

Some sample documents are attached.

The most important thing we are trying to accomplish is this; we don't want to ever put a driver on the road in one of our motor coaches that is too tired or too sick to drive.

20 - Blessed Limousine HOS policy

If you were working at a different job until midnight on Monday night, we don't want to dispatch you before 8 am on Tuesday – this is an example of why you need to fill out that form including what time you were released from duty the day before.

If, at the end of the month, I have to ask for something to be corrected or ask for more information, this is the reason why. WE want to be sure we always have drivers that are within the legal limit on hours of service, and we have the documents to prove it.

WE appreciate your cooperation. This is a DRAFT policy, so if you have a suggestion about how we might do something even more efficiently or effectively, let me know; your idea might result in a change or addition to this policy.

TRAINING CERTIFICATE

CLUSSIE BAGBY

has completed a webinar training course on the topic of:

**DOT COMPLIANCE TRAINING
HOURS OF SERVICE, FATIGUED DRIVING, ELD
RULES & LOG AUTOMATION, RECORDS OF DUTY,
& EXEMPTIONS AND EXCEPTIONS**

FEBRUARY 13TH, 2020

Training provided by DOT Compliance Help, Inc. TM
543 E. Main Street, Ste. B, East Dundee, IL 60118
(847) 836-6063, www.dotcompliancehelp.com

One hour seminar **The HOS BASIC**

For Managers of transportation-related companies and private carriers

Remember, It's not about Hours of Service. - It's about driver fatigue..

A tired driver is a dangerous driver.

HOS monitoring is an important tool for combating driver fatigue.

**11 driving
14 on duty
10 off duty**

FMCSR 395 sets limits on driving and on-duty time, sets minimum rest periods, and establishes a regimented documentation process.

This material is developed by
DOT Compliance Help, Inc.

For use in training our clients

Re-use or reproduction without permission is not authorized

BLESSED LIMOUSINE INC- DOT #2822783
15 S GRADY WAY - RENTON, WA 98057
TEL. 206-579-5911

Date: 17 February 2020

TO: All drivers and employees of Blessed Limousine Inc.

Effective immediately:

A. Roadside inspections:

As a team, we must work together to ensure we never dispatch a bus that has a violation from a roadside inspection.

For every roadside inspection, we will maintain documentary evidence of repairs. Any roadside inspection document must be brought to me immediately.

If there is one or more out-of-service violations, we will not operate that vehicle until the OOS violations are corrected.

When there are other violations, which are not OOS violations, we will ensure these are corrected before the vehicle is dispatched again.

B. Annual inspections

We will have these done each 8 – 10 months.

We will put a sticker on the outside of the bus each time an inspection is completed.

Drivers will check the date of the most-recent annual inspection each day when performing a pre-trip inspection.

I will check the list and schedule annual inspections to be done well before they expire.

C. Quarterly inspection / Scheduled maintenance inspections - including inspection of emergency exits

Once each quarter or 90 days, we will take each motor coach to Gary Miller's shop where he will perform his "A" inspection (sample attached)

At that time, Miller will also complete the Quarterly Bus Window / emergency window inspection (See sample, attached)

Once each 6 months, we will take each motor coach to Gary Miller's shop to perform a "B" inspection and an annual DOT inspection

D. Daily vehicle Inspections

Using the new DVIR form as a memory aid, each driver will perform a thorough pre-trip and post-trip inspection each day and turn in a DVIR with a signature and date, and if applicable, sufficient information to direct needed repairs.

If a driver notes a violation which would make the CMV unsafe to operate, the vehicle will not be dispatched until needed repairs are complete.

If minor violations are noted on DVIRs, we will be sure repairs are complete no later than the next scheduled maintenance interval.

Note to drivers and other employees:

Regarding operating a CMV when it was declared Out of Service:

Last year, one of the mistakes we made was this; we had a CMV placed out of service with more than one OOS Violation, at a roadside inspection.

One of the violations was a tire violation.

We had the vehicle towed here and made the repairs except the tires.

Then, we had someone drive it a couple miles to the tire shop.

We thought we were doing it OK, but then the DOT investigator pointed out we actually operated the CMV while it was OUT OF SERVICE.

We all need to understand this really basic thing about the FMCSA – if a vehicle is placed OOS we cannot move it at all, unless an inspector specifically states we should driver to a specific place to make repairs.

We all must work together to be sure this does not happen again.

Regarding Annual Inspection:

One of the problems we had last year was, we had a vehicle dispatched with an annual inspection that was expired.

To keep that from EVER happening again, we are going to put stickers on the buses letting you know when they had an annual inspection.

WE are NOT Going to wait a full year; we might be getting these annual inspections done each 6 months.

Every time you are dispatched you need to do a good, thorough pre-trip inspection, including checking to see when the annual inspection was done.

We have to work together to make sure we never let one of these slip past again.

Regarding Frequent OOS Violations:

Last year we had too many Out of Service violations; the percentage was 60%. When a company has an OOS Percentage that is more than 34%, it can really hurt on a compliance review – this was one of the things that led to us getting shut down temporarily.

I have got a copy of the CVSA Out of Service Guide and we are all going to have some training on it. And, we are going to find some other ways to make sure we all get enough training to avoid getting ANY out of service violations.

I am open to suggestions; we need to work together as a team to make sure our buses are properly maintained and be PARTICULARLY careful about OOS Violations.

We are going to hand out a complete list of all the OOS Violations as soon as possible, but for now, let's all look at the list of OOS Violations that hurt us last year:

393.62(a) No or Defective bus emergency exits	3 times
393.205(c) Wheel fasteners lose	1 time
393.51 No or defective brake warning device	1 time
393.75(a)(1) Tire-ply or belt material exposed	1 time
393.75C Tire-other tread depth less than 1/32 of inch	1 time

393.83(d) Improper exhaust-bus (diesel)	1 time
393.9(a) Inoperative Brake Lamps	1 time

The most-common violation was the emergency exits.

393.62(a) No or Defective bus emergency exits

We went to always be sure we do a good job and don't have a wreck, but something could happen. So, all drivers have to be sure they know how to operate the emergency exits. And, we have a scheduled inspection each 90 days to make sure they are working right. Always look carefully at the emergency exits during your pre-trip to be sure there is nothing wrong.

393.205(c) Wheel fasteners lose

As part of the pre-trip you have to check to be sure the lug nuts are properly torqued. We may install some visual aids to help you, but it is really important when you are doing a pre-trip to check the lug nuts. The consequences of a tire coming off are just too severe.

393.51 No or defective brake warning device

During pre-trip inspections we have to do the brake checks.

393.75(a)(1) Tire-ply or belt material exposed and
393.75C Tire-other tread depth less than 1/32 of inch

All drivers on pre-trips have to look for tire violations. But, we are also going to have our tire contractor come by the lot once a week to check our tires. WE all will work together to be sure we don't take chances with our passengers' lives by dispatching a moto coach with tires that aren't good enough.

30 - Blessed Limousine LLC - Maintenance policy

393.83(d) Improper exhaust-bus (diesel)

Like everything else; you have to check during the pre-trip inspection, and if there is an exhaust problem we have to get it taken care of before putting the motor coach on the road. I think the exhaust violation was something a driver would not have noticed; this is an example of why we are having a quarterly inspection. So if the exhaust problem is noticed, put it on the DVIR and let me know.

393.9(a) Inoperative Brake Lamps

This is one more thing you have to always check on pretrips; we have to work together to make sure we don't send a bus down the road with any lights that aren't working.

We cannot prevent ALL violations, but we will try.

We cannot always prevent OOS violations, but we will try particularly hard to avoid these.

We are all going to spend a little time looking at eh list of Out of Service violations, and we are going to set up some refresher training on pre-trip inspections, to help everyone do their best on this important task.

Clussie Bagby, (PRESIDENT)

INSTRUCTIONS: MARK COLUMN ENTRIES TO VERIFY INSPECTION: ✓ OK, X NEEDS REPAIR, NA IF ITEMS DO NOT APPLY, _____ REPAIRED DATE

CERTIFICATION: THIS VEHICLE HAS PASSED ALL THE INSPECTION ITEMS FOR THE ANNUAL VEHICLE INSPECTION IN ACCORDANCE WITH 49 CFR PART 396.

**Periodic Inspector Qualification
CERTIFICATION**

I, JOSE LUIS TORRES AT, hereby certify that I am knowledgeable in the requirements for performing an annual vehicle inspection and I can identify defective components in compliance with the regulations of the U.S. Department of Transportation for annual vehicle inspections contained in 49 CFR Part 396 Appendix G. I hereby agree to comply with all such regulations governing annual vehicle inspections.

A qualified inspector must meet one or more of the following requirements. Please check those applicable.

- Successfully completed a state or federal sponsored training program, which qualifies me to perform a commercial vehicle safety inspection.
- One year of training and/or experience in truck manufacturer of similar commercially sponsored training designed to train in truck operation and maintenance.
- One year experience as a mechanic or inspector in a motor carrier maintenance program.
- One year experience as a mechanic or inspector in truck maintenance at a commercial garage, fleet leasing company, or similar facility.
- One year experience as a commercial vehicle inspector for a state, provincial or federal government.

JOSE LUIS TORRES AT
Signature of Mechanic/Inspector

I, MARC EISBERNER, hereby certify that JOSE LUIS TORRES has met the requirements for a qualified inspector to perform the annual vehicle inspection in compliance with the regulations of the U.S. Department of Transportation for qualified inspectors contained in 49 CFR Part 396.19.

Dated this 15th day of September, 2019.

BRAKE INSPECTOR'S CERTIFICATION

Name of Brake Inspector: Jose Luis Torres At
(Print)

Date 9/15/2019

 I hereby certify I am a **Qualified Brake Inspector** by the following criteria set forth under 396.25:
And

 I am knowledgeable of and have mastered the methods, procedures, tools, and equipment used when performing an assigned brake service or inspection task;
And

 I am capable of performing the assigned brake service or inspection by reason of experience, training, or both as follow:

 I have successfully completed an apprenticeship program sponsored by a state, Canadian province, federal agency, or labor union, or a training program approved by a state, provincial, or federal agency, or have a certificate from or Canadian province which qualifies me to perform the assigned brake service or inspection task (including passage of Commercial Driver's License air brake tests in the case of a brake inspection);

Or

 I have brake-related training or experience or a combination thereof totaling at least one year. The training consisted of:

 Participation in a training program sponsored by a brake or vehicle manufacturer or similar commercial training program designed to train students in brake maintenance or inspection similar to the assigned brake service or inspection task;

Or

 I have experience performing brake maintenance or inspection similar to the assigned service or inspection task at a commercial garage, fleet leasing company, or similar facility.

Signature of Brake Inspector: Jose Luis Torres At

Date: 9/15/2019

I, _____, understand, under FMCSR 396.25 that no motor carrier shall employ
(Carrier official)

any person as a brake inspector unless evidence of the inspector's qualifications, required under this section, is maintained by the motor carrier at its principal place of business, or at the location at which the brake inspector is employed. The evidence must be maintained for the period during which the brake inspector is employed in that capacity and for one year thereafter. However, motor carriers do not have to maintain evidence of qualifications to inspect air brake systems for such inspections performed by persons who have passed the air brakes knowledge and skills test for a Commercial Driver's License.

Motor Carrier Name: _____ Date: _____

Carrier Official: _____ Title: _____

INSPECTOR QUALIFICATIONS

Certification — 49 CFR — Part 396.19

Motor carriers are responsible for ensuring that individual(s) performing an annual inspection under 396.19 are qualified as follows:

- Understands the inspection criteria set forth in Part 393 and Appendix G and can identify defective components
- Is knowledgeable of and has mastered the methods, procedures, tools and equipment used when performing an inspection
- Is capable of performing an inspection by reason of experience, training, or both, and qualifies in one of the following categories (check all that apply):
 - I. Successfully completed a State or Federal training program or has certificate from a State or Canadian Province which qualifies the person to perform commercial vehicle safety inspections. Specify:

OR

II. Have a combination of training or experience totaling at least one year as follows (check all that apply):

A. Participation in a truck manufacturer-sponsored training program or similar commercial training program designed to train students in truck operation and maintenance. Where and Date:

Bates Voc. Tech. Tacoma, WA (CBC) '87, '98, 2008

B. 15+ (years) experience as a mechanic or inspector in a motor carrier maintenance program. Name and Date:

W.F. Truck Repair, Kent - Totem Coaches, Edgewood, WA
1983 - 1990 / 1996 - 1998 / 2002 - present

C. 30+ (years) experience as a mechanic or inspector in truck maintenance at a commercial garage, fleet leasing company, or similar facility. Name of Facility and Dates:

- Same as Above -

D. _____ (years) experience as a commercial vehicle inspector for a State, Provincial, or Federal Government. Where and Dates:

I certify the above information is true and accurate to the best of my knowledge.

In trying to help Clussie Bagby in every way I can, I realized he did not have a copy of the CVSA OOS Guide, so went to the CVSA website and ordered one to deliver to him.

Somehow I hit the wrong button and accidentally purchased the OOS guide electronic version and it came up in my email yesterday.

So just now, I took my 2019 OOS guide to the post office and mailed It to Clussie. RCT attached.
