COMMERCIAL OPERATION CERTIFICATE

The undersigned, Golden Hills Wind Farm LLC (“Seller”) and NEI Electric Power Engineering, Inc. (“Licensed Professional Engineer”) make[s] the following certifications to Puget Sound Energy, Inc. (“Purchaser”), dated as of April 29, 2022. All capitalized terms not otherwise defined herein shall have the meaning given to them in the Power Purchase Agreement dated May 28, 2020 between Seller and Purchaser (the “Agreement”).

Seller hereby certifies that:

1. The Final Nameplate Capacity of the Wind Project is 201.3 MW_{AC}.
2. Except for punch list items that would not materially affect the performance, reliability, for safe operation of the Wind Project, the same has been erected and installed by the respective suppliers (including the Contractor, the “Suppliers”), has been completed in accordance with the material applicable specifications under the respective supply agreements, and is ready for continuous generation and delivery of Energy to the Delivery Point in compliance with all Applicable Laws and Governmental Approvals.
3. Except for punch list items that would not materially affect the performance, reliability, or safe operation of the Wind Project, as required under the Agreement, all requirements necessary to achieve commercial operability thereof have been substantially completed.
4. Seller’s Interconnection Facilities have been completed in accordance with applicable specifications, tariffs, Laws and Governmental Approvals to enable power generated by the Wind Project to be received at the Delivery Point.
5. Seller has obtained all Governmental Approvals necessary for the Wind Project to continuously generate and deliver Energy to the Delivery Point and the same is in compliance with all such Governmental Approvals and all other Applicable Laws in all material respects.
6. All necessary arrangements for the prudent and proper operation and maintenance of the Wind Project have been put in place and are in full force and effect.
7. Seller has a valid leasehold or real property interest in the Site for a term of at least twenty (20) years from the Commercial Operation Date.

Licensed Professional Engineer certifies that:

1. We have read the Agreement, the supply agreements, the engineering, procurement and construction contract, and we understand the requirements for Commercial Operation under the Agreement, the specifications and performance testing requirements under the supply agreements, and the requirements for commercial operation and/or substantial completion under the engineering, procurement and construction and contract.
2. We have reviewed the material and data made available to us by the Seller, the Suppliers, and the Contractor for the Wind Project.

3. To the extent practical, we have reviewed the engineering, procurement, construction and performance testing for the Wind Project and in the course of this review we have not discovered any material errors or omissions in the work performed to date.
4. We have reviewed the certifications of Seller above, and find the representations provided to be correct in all material respects.
5. We have reviewed all Governmental Approvals and permits identified by the Seller as being required for the construction and operation of the Wind Project and are of the opinion that the same is in compliance in all material respects with the environmental and technical requirements contained therein.
6. Based on our review of the aforementioned information and of information provided to us by others which we have not independently verified, we are of the opinion that, as of April 29, 2022, Commercial Operation of the Wind Project has occurred as defined in the Agreement.

Executed this 29 day of April, 2022
