Lacey, WA 98503

RE: Petition to Receive Support from the State Universal Communications Program  
Program Year 2024 Docket UT-220634

Dear Ms. Maxwell:

At the time of the filing, the company has 1,762 broadband subscribers and had built out fiber services to 2200 locations. There are very few households that do not subscribe to our services, the other unsubscribed locations are where the company has fiber in the right-of-way ready to serve tax parcels awaiting new single family construction. Fiber will still need to be placed from the right-of-way to the home, no additional right-of-way construction will be required.

The the revised Compliance Report as request by staff, that are required by WAC 480-123 is attached.

In accordance to UT-190437, the Company will file it's BDC report on or before September 17<sup>th</sup>, 2023

Sincerely,

A handwritten signature in black ink, appearing to read "Dale Merten".

Dale Merten  
VP/Chief Operating Officer
