INSTALLATION APPOINTMENTS MET

The installation Appointments Met report measures the percentage of appointments for the connection of service met on the commitment date. Beginning with May 1993, report each month's results, adding subsequent months' data until 12 months of data is reported. After that point, add the current month data and delete the 13 month old data in order to always report percentages for 12 months.

HELD ORDERS

The Held Order report lists the number of requests for primary exchange service that is not filled on or before the commitment date. State the number of held orders expressed as a ratio per one hundred new or reestablished lines ordered. Begin reporting with May 1993 ratios. After ratios for 12 months have been reported, subsequent reports should add the current month's data and delete the 13 month's data in order to continue reporting the most current 12 months of results.
