The Commission's Order 09/07/12 authorized a revenue requirement decrease of \$4.15 million, or 1.18 percent, to the Company's base rates, effective January 1, 2021. This rate change incorporates the approximately \$1.48 million reduction to the depreciation rates agreed to in

Docket UE-180778 and the return of excess deferred income tax benefits from the Tax Cuts and Jobs Act of 2017 to customers.²

Enclosed as Attachment A is the estimated effect of the price changes, including billing determinants and monthly billing comparisons. The average residential customer using 1,200 kWh per month will see a decrease of \$0.55 per month.

As directed in the Order, PacifiCorp notifies the Commission that the Company accepts the conditions of approval on the settlement stipulation set forth by Order 09/07/12. While each Party will be filing a letter to separately indicate their approval of the conditions in this Order, PacifiCorp has reached out to the Parties and received confirmation that the conditions are acceptable. As a result, PacifiCorp is making this tariff compliance filing.
