

Ex. 94

WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION STAFF
RESPONSE TO DATA REQUEST

DATE PREPARED: December 7, 2007
DOCKET: TR-070696
REQUESTER: BNSF

WITNESS: Paul Curl
RESPONDER: Jonathan Thompson
TELEPHONE: (360) 664-1225

BNSF DATA REQUEST NO. 2:

Please list the number of vehicle, motorcycle, bicycle, wheelchair, baby stroller, pedestrian, and all other types of accidents that have occurred at the Blackburn Crossing since the Blackburn Crossing's most recent design upgrade.

RESPONSE:

There have been none involving the railroad. The City of Mount Vernon provided a list of traffic accidents occurring at, or near, the intersection of Blackburn and South 2nd Street/Old Highway 99 in response to Staff Data Request No. 2. Note: Please see Staff's response to BNSF Data Request No. 12 for an explanation of what Staff understands to be the "most recent design upgrade" to the Blackburn Crossing, *i.e.*, installation of traffic signals sometime after May 2003.
