Ref. No. Docket PG-051609

November 20, 2007

Chris Searcy  
Public Works Director  
City of Enumclaw  
1339 Griffin Avenue  
Enumclaw, Washington 98022

Dear Mr. Searcy:

**Subject: Receipt of Requirements per Commission Order in Docket PG-051609**

This letter acknowledges that on November 13, 2007, the commission received the City of Enumclaw's (City) Operations and Maintenance (O&M) manual. Oleksa and Associates transmitted that document to the commission on behalf of the City.

In addition, your letter to us dated November 13, 2007, stated that the City has assigned the full time duties of Natural Gas System Manager (Manager) to Mr. Jim Flisrand. According to your letter, the City has relieved Mr. Flisrand of his other duties, and he will remain the City's interim Natural Gas System Manager until the City hires a permanent Manager.

These two actions by the City fulfill the filing and personnel requirements identified in our October 23, 2007, letter.

As you know, the commission previously scheduled for this month a follow-up inspection to review the City's O&M manual. Because the City did not file the O&M manual until late November, that did not leave us sufficient time to prepare for that inspection. Consequently, we will contact you in the near future to reschedule this inspection.
